PAPER 1

SECTION A. (40 Marks)

1. Name any one product got from a domestic bird.

_____

2. Give the use of a toilet at school.

_____

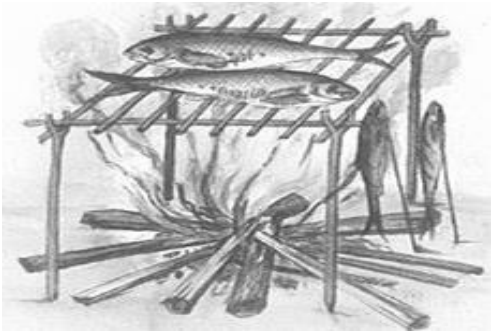
3. Why do farmers provide houses to their farm animals?

_____

4. Identify any one insect that lives in soil.

_____

5. Identify the method of preserving food shown below.



_____

6. Why is a lion dangerous to people?

_____

7. Which clouds are a sure sign of rainfall?

_____

8. Draw a garden tool used for cutting big trees.

9. Name any <u>one</u> place where children are taken for immunization.

_____

10. Which gas is given out by plants during photosynthesis?

_____

11. Write any <u>one</u> type of family in your sub-county / Division.

_____

12. Why are people advised to drink boiled water?

_____

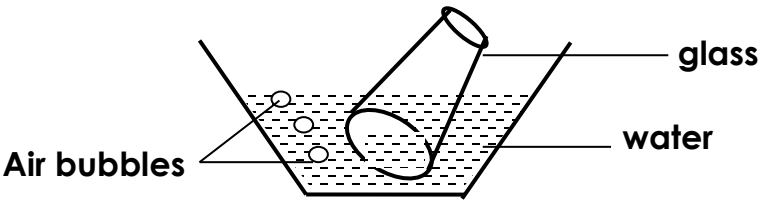
13. Why should every family start a tree planting project in our community?

_____

14. Name any <u>one</u> play material that children can make at home.

_____

15. What does the diagram below show about air?



_____

16. How is strong wind dangerous to a person using a boat?

_____

17. Why do farmers mulch their gardens?

_____

18. Name any <u>one</u> element of weather.

_____

19. How is a mortar and a pestle useful in a kitchen?

20. Identify any one method of planting maize.

21. Why do farmers dry cereal crops before storing them?

22. Why is it dangerous to disturb bees in their hives?

23. Give any one way of avoiding mosquito bites in your bedroom.

24. Write any one danger of the sun.

25. Name the food value got from eating beans.

26. Which body organ is cared for by wearing sunglasses?

27. Identify any one item used to keep your classroom clean.

28. How do you care for pit latrines?

29. Apart from decomposition, give any other way in which soil is formed.

30. State any one role of children at home.

31. Give the use of a rake to farmers.

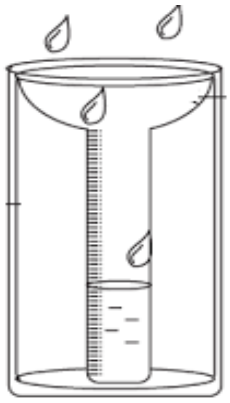
32. How do you care for your school shoes?

_____

33. Name any <u>one</u> plant that grows well in a desert.

_____

<u>The diagram below shows a rain gauge.</u>



34. Of what use is the above instrument to people?

_____

35. Give any <u>one</u> effect of poor feeding in children.

_____

36. How is the larva stage of a butterfly dangerous to crop farmers?

_____

_____

37. State any <u>one</u> use of moving air to people.

_____

38. Give any <u>one</u> reason for carrying casualties to hospitals.

_____

39. <u>Draw any one item made from wood/ timber.</u>

40. Give any one importance of things we make like bags.

_____

SECTION B : (60 MARKS)

41. (a) Name any two common accidents at home.

(i) _____

(ii) _____

(b) State any one cause of road traffic accidents.

_____

(c) Give any one way of reducing accidents on our roads.

_____

42. (a) Name any two things you can do to promote personal hygiene.

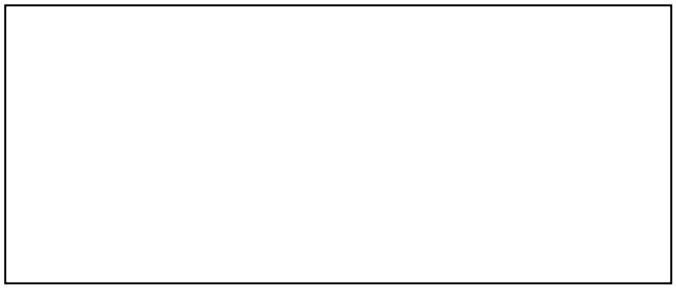
(i) _____

(ii) _____

(b) What problem can result from failing to keep the body clean?

_____

(c) Draw any one item used to care for your body parts.



43. (a) Name any two examples of crop pests.

(i) _____

(ii) _____

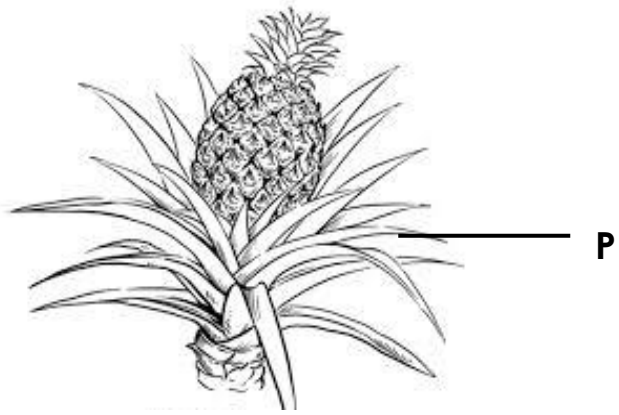
(b) Write any one way of controlling pests in a garden.

_____

(c) How is a granary useful to a crop farmer?

_____

44. <u>The diagram below shows a flowering plant.</u>



(a) Identify the flowering plant shown above.

_____

(b) Why is the above plant grouped under flowering plants?

_____

(c) Give the use of part <u>P</u> to the plant.

_____

(d) What food value is got from eating the above plant?

_____

45. (a) Give any <u>one</u> natural change in the environment.

_____

(b) Write any <u>two</u> effects of natural changes in the environment.

(i) _____

(ii) _____

(c) How can natural changes in the environment be controlled?

_____

46. **Match the following correctly.**

Animal	movement
Cow	swimming
Fish	leaping
Toad	flying
Bee	walking

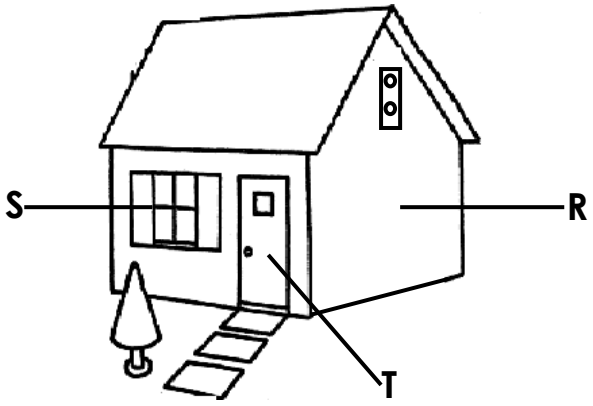
(a) Cow _____

(b) Fish _____

(c) Toad _____

(d) Bee _____

The diagram below shows a house. Use it to answer question 47.



47. (a) Name part marked S and T above.

S _____

T _____

(b) Identify any one item used to make part R.

_____

(c) Give any one use of a house to people.

_____

48. (a) What is germination?

_____

_____

(b) Write any <u>two</u> conditions needed by a seed to germinate.

(i) _____

(ii) _____

(c) Give any <u>one</u> way of caring for seedlings.

_____

49. <u>The diagram below shows a common item. Use it to answer the questions that follow.</u>

(a) From which material is the above item made?

_____

(b) How is the above item useful to people?

_____

(c) Why should the above item be handled with care?

_____

(d) How can you keep the above item clean?

_____

50. (a) Identify any <u>two</u> places where rubbish can be disposed properly.

(i) _____

(ii) _____

(b) Name the insect that is commonly found in dirty places.

_____

(c) Write any one danger of staying in a dirty place.

_____

51. (a) Who heads most normal families in our community?

_____

(b) Name any two groups of people in a family.

(i) _____

(ii) _____

(c) Who breastfeeds a baby in a family?

_____

52. (a) Give one example of an energy giving food.

_____

(b) Name any one use of food in the body.

_____

(c) State any two dangers of poor feeding.

(i) _____

(ii) _____

53. (a) Identify any one main part of an insect.

_____

(b) Write any one characteristic of insects.

_____

(c) Give one example of each of the following;

(i) useful insects _____

(ii) harmful insects _____

54. (a) Name any two sources of water in our sub-county / Division.

(i) _____

(ii) _____

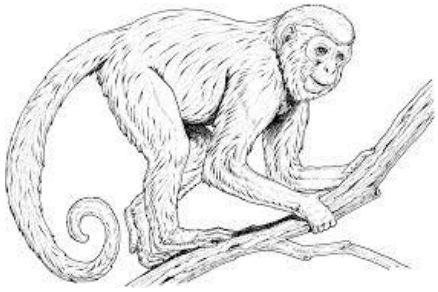
(b) Give the use of water to wild animals.

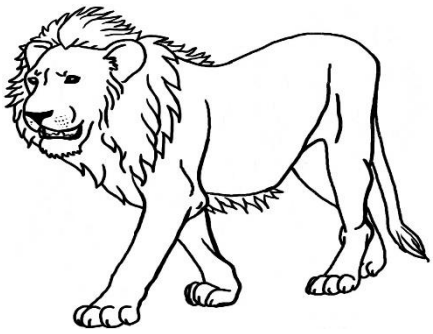
_____

(c) Write any <u>one</u> human activity that can make water sources dirty.

_____

55. <u>The pictures below show wild animals.</u>

A	B
	




(a) Identify the animals shown above.

(i) A _____

(ii) B _____

(b) Name the habitant for animal <u>A</u>.

_____

(c) How is animal B dangerous to people?

_____

PAPER 2

SECTION A. (40 Marks)

1. How many legs has a spider?

_____

2. Give one danger of long fingernails.

_____

3. How is a dustbin useful in a classroom?

_____

4. Write any one member of a nuclear family.

_____

Below is an object found in our environment.

5. How is the object above dangerous to children?

_____

6. Why do farmers mulch their gardens?

_____

7. How can you protect yourself against tooth decay?

_____

8. Which element of weather dries our clothes?

_____

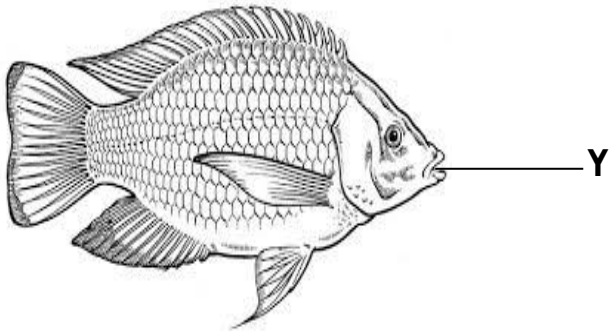
9. Name any one living component of the environment.

_____

10. On which part of an insect are the wings attached?

11. How is a latrine useful to people?

<u>The diagram below is of a fish. Use it to answer question 12.</u>



12. Give the function of part marked Y.

13. Why do dogs bark at strangers?

14. How can you care for crops in the dry season?

15. Write <u>one</u> danger of playing from the kitchen.

16. Give any <u>one</u> use of shadows to people.

17. Identify <u>one</u> function of leaves to a plant.

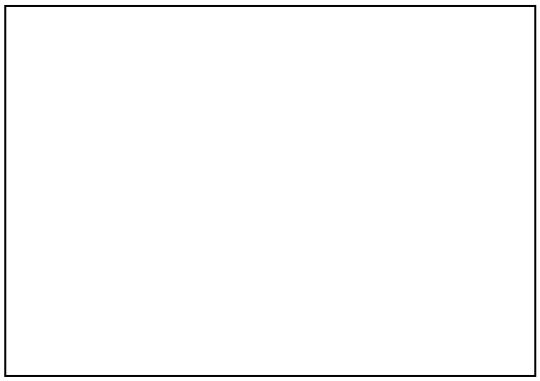
18. Name the immunisable disease that makes children lame.

19. In which way can wild animals be dangerous to people?

20. Why is it a good practice to put on gumboots on a rainy day?

21. How does a bat move from one place to another?

22. Draw a garden tool used for collecting rubbish.



23. Give any one danger of strong wind to people.

24. Write down the first aid for burns.

25. Name one human activity that can lead to soil erosion.

26. Why are casualties given first aid?

27. How are houseflies dangerous to people?

28. Identify any one food stuff that people eat without cooking it.

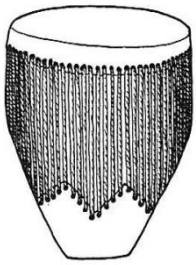
29. Name the habitat of a frog.

30. How can people protect their eyes on a sunny day?

31. State one way of keeping water sources clean.

_____

32. The diagram below shows a drum.



Name one animal whose skin is used to make the drum.

_____

33. Give one way you can reduce pests in the garden.

_____

34. Give one use of a panga at home.

_____

35. Draw and name any one wild animal that can kill people.

36. How can family members protect themselves from mosquito bites at home?

_____

37. How can you protect your food from being contaminated?

_____

38. Give one reason why people keep birds at home.

_____

39. How can you help a blind man or woman in your village?

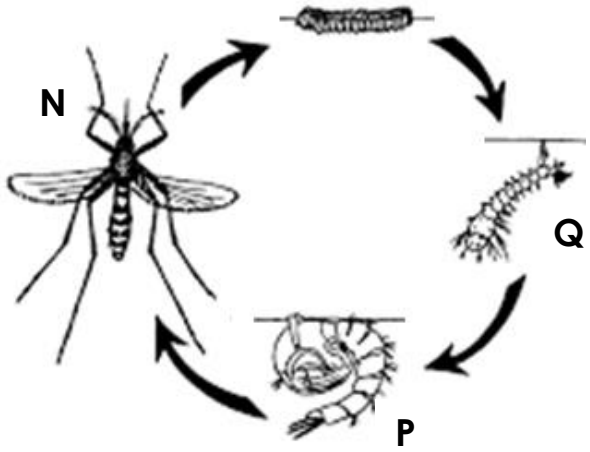
_____

40. Give any <u>one</u> use of soil to people.

_____

SECTION B

41. <u>The diagram below shows life cycle of an insect. Use it to answer the questions below.</u>



a) Name the stages marked Q and N

N _____

Q _____

b) Give <u>two</u> insects whose life cycle is similar to the one shown above.

(i) _____

(ii) _____

42. Write any <u>two</u> causes of road accidents.

(i) _____

(ii) _____

b) How can road accidents be controlled?

(i) _____

(ii) _____

43. a) What is weather?

_____

_____

b) Identify the type of weather that leads to drought.

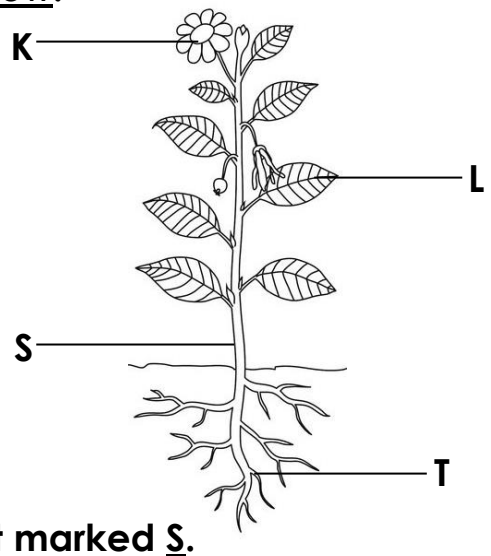
_____

c) Give any <u>two</u> elements of weather.

(i) _____

(ii) _____

44. <u>The diagram below is of a flowering plant. Use it to answer the questions below</u>.



a) Name part marked <u>S</u>.

S _____

b) Give the function of parts marked <u>T</u> and <u>L</u> to the plant.

T _____

L _____

c) Why do bees visit part K?

_____

45. a) Why do we eat food?

_____

b) Give any <u>one</u> use of food in the body.

_____

c) How can you preserve the following food stuffs?

(i) fish _____

(ii) beans _____

46. <u>Match these animals</u>

<u>Animal</u>	<u>movement</u>
Fish	- walking
Snake	- slithering
Grasshopper	- swimming
Cow	- hopping

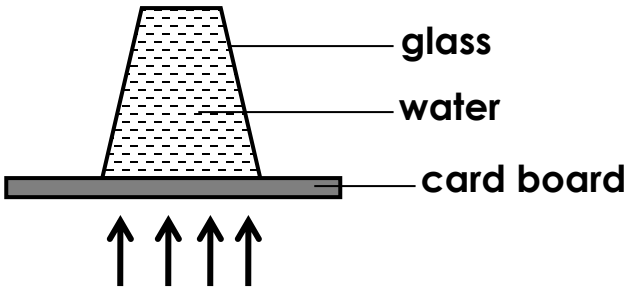
a) Fish _____

b) Snake _____

c) Grasshopper _____

d) Cow _____

47. a) <u>Name the property of air shown below.</u>



_____

b) How is the above property useful to people?

_____

c) Give any two other properties of air.

(i) _____

(ii) _____

48. a) Write any two examples of seeds eaten by people.

(i) _____

(ii) _____

b) Identify any two things needed by a seed to germinate.

(i) _____

(ii) _____

49. a) Apart from clay , name any other type of soil

_____

b) Why is clay soil the best for making pots?

_____

d) Name one thing which is added to sand soil when building a house.

_____

d) Give one way in which we can make the soil more fertile.

_____

50. a) Draw and name any one item used to clean our school compound.

b) Where can pupils at school put the rubbish?

(i) _____

(ii) _____

c) Why should you wash your hands after cleaning the compound?

_____

51. a) Write one example of natural changes in the environment.

_____

b) Identify any two natural causes of changes in the environment.

(i) _____

(ii) _____

c) Name one human activity that causes changes in the environment.

_____

52. a) Give any two characteristics of living things.

(i) _____

(ii) _____

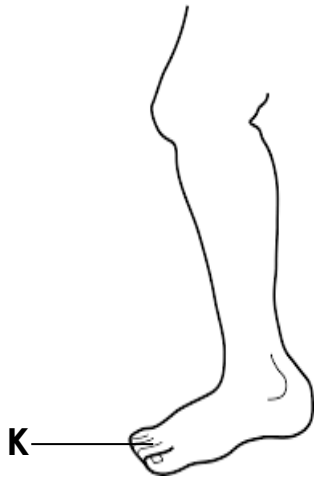
b) Apart from animals, give any other group of living things.

_____

c) Where do wild animals such as lions live?

_____

53. **The diagram below shows part of the human body.**



a) Name the part of the body shown above.

_____

b) Give the use of the body part shown above.

_____

c) Identify part marked K on the diagram above.

_____

d) How do you care for the body part above?

_____

54. Write any two sources of water in our division.

(i) _____

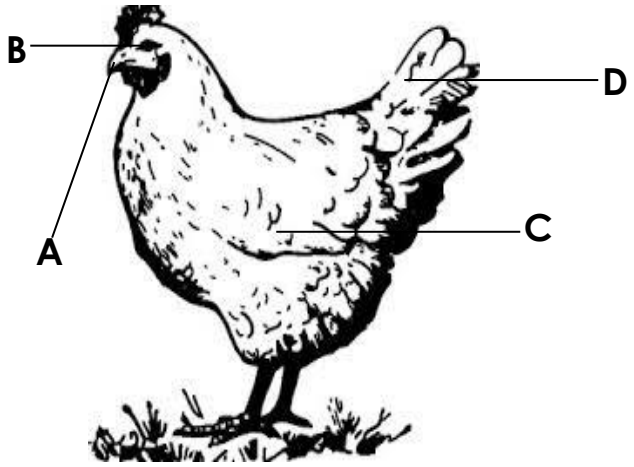
(ii) _____

b) Give any two uses of water to people.

(i) _____

(ii) _____

55. <u>The diagram below is of a living thing. Use it to answer the questions below.</u>



a) Name part labeled D.

_____

b) What is the use of part A to the bird?

_____

c) Give any <u>two</u> uses of that bird to people.

(i) _____

(ii) _____

PAPER 3

SECTION A. (40 Marks)

1. Name one domestic animal that provides us with milk.

_____

2. How useful is a broom in your classroom?

_____

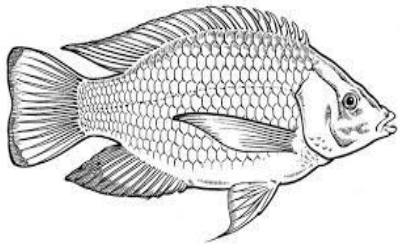
3. Why is a hen grouped under living things?

_____

4. How are rats dangerous to a crop farmer?

_____

5. What food value do we get when we eat the animal below?



_____

6. Give one role of a mother at home.

_____

7. Give one domestic animal used for transport.

_____

8. Why is it dangerous to share clothes with other people?

_____

9. Give one use of leaves to people.

_____

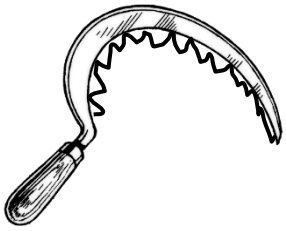
10. Give any one effect of accidents to people.

_____

11. **Why should a casualty be given first aid?**

_____

12. **How is the garden tool below useful to a farmer?**



_____

13. **Name any <u>one</u> disease that has no cure.**

_____

14. **Why do we need to bathe everyday?**

_____

15. **Why is a spider not referred to as an insect?**

_____

16. **How is too much sunshine dangerous to crop farmers?**

_____

17. **How is a shadow useful to people?**

_____

18. **Why should we have a dustbin in our classroom?**

_____

19. **Give the use of a toilet at home.**

_____

20. **Identify any <u>one</u> use of feathers to birds.**

_____

21. **Name the animal waste used for smearing the floor of a house.**

_____

22. **Identify the health practice done before eating food.**

_____

23. **Name part of the bird marked B.**

_____

24. **How is a housefly dangerous to people?**

_____

25. **Name any <u>one</u> place where people can get food.**

_____

26. **Give <u>one</u> use of trees found in the school compound.**

_____

27. **Name <u>one</u> tool that we can use to keep our bodies clean.**

_____

28. **Why are farmers advised to keep metallic garden tools in a cool dry place?**

_____

_____

29. **Give <u>one</u> element of weather.**

_____

30. **Why should pedestrians cross a busy road at a zebra crossing?**

_____

31. **How is electricity useful at home?**

_____

32. **Why should we boil water for drinking?**

_____

33. Name <u>one</u> thing we can make from banana fibres.

_____

34. <u>The diagram below shows a garden tool</u>.

Give the use of the garden tool above.

_____

35. Name any <u>one</u> fruit we eat at school.

_____

36. Identify any <u>one</u> danger of poor feeding to a P.3 child.

_____

37. What food value do we get from eating cassava?

_____

38. Why is it advisable to sleep under a treated mosquito net?

_____

39. Give <u>one</u> component of the environment.

_____

40. How can dogs be useful at home?

_____

<u>SECTION B:</u>

41. (a) Write down any <u>two</u> components of soil.

(i) _____

(ii) _____

(b) Give two ways of controlling soil erosion.

(i) _____

(ii) _____

42. (a) Name any two common diseases in our homes.

(i) _____

(ii) _____

(b) What vector spreads malaria?

_____

(c) Give one way of controlling malaria at home.

_____

43. Match the animals in A to their homes in B correctly.

A	B
Dog	den
Fish	tree
Monkey	kennel
Lion	water

(i) Dog _____

(ii) Fish _____

(iii) Monkey _____

(iv) Lion _____

44. (a) Name two areas at home that must be kept clean.

(i) _____

(ii) _____

(b) How can we keep our homes clean?

(i) _____

(ii) _____

45. (a) **Draw and name any two things we use to keep our bodies clean.**

(b) Write two dangers of not keeping our bodies clean.

(i) _____

(ii) _____

46. (a) What name is given to a sudden happening that causes harm to the body?

_____

(b) What is first aid?

_____

_____

(c) Give two reasons why we give first aid.

(i) _____

(ii) _____

47. (a) What are domestic animals?

_____

_____

(b) Identify any two examples of domestic animals.

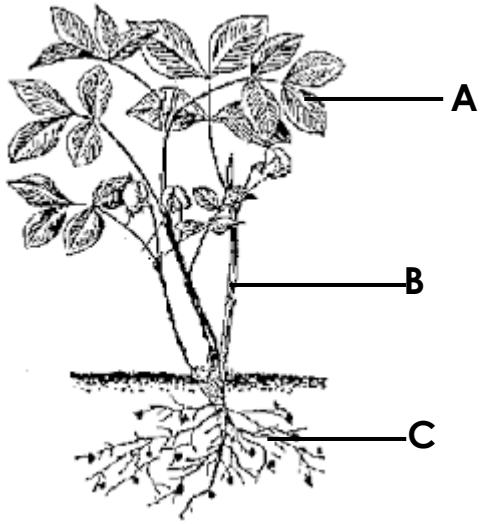
(i) _____

(ii) _____

(c) Give <u>one</u> way of caring for domestic animals.

_____

48. <u>The diagram below shows a plant.</u>



(a) Which part is used for sucking water?

_____

(b) Give <u>two</u> uses of plants to people.

(i) _____

(ii) _____

(c) Name <u>one</u> example of a harmful plant.

_____

49. (a) What is a balanced diet?

_____

_____

(b) Write two food values that make up a balanced diet.

(i) _____

(ii) _____

(c) How is food important in the body?

_____

50. (a) How is AIDS spread?

_____

_____

(b) How is AIDS dangerous to people?

_____

(c) Give <u>two</u> ways of caring for AIDS patients.

(i) _____

(ii) _____

51. Give <u>two</u> natural causes of changes in the environment.

(i) _____

(ii) _____

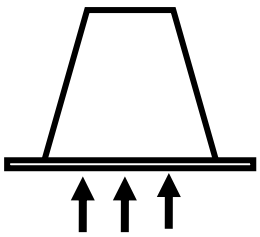
(b) Name <u>one</u> man made change in the environment.

_____

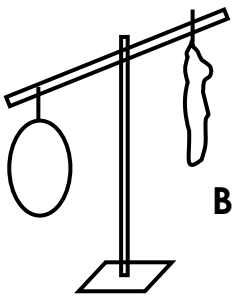
(c) How can you care for trees at home?

_____

<u>The diagrams below show properties of air. Use them to answer questions that follow.</u>



A



B

52. (a) Identify the properties of air marked <u>A</u> and <u>B</u>.

(i) A _____

(ii) B _____

(b) How is Carbondioxide useful to people?

_____

(c) Which part of air is needed for burning?

_____

53. (a) Name <u>one</u> source of water.

_____

(b) Give <u>three</u> uses of water at home.

(i) _____

(ii) _____

(iii) _____

54. (a) What is mulching?

_____

_____

(b) Give <u>two</u> importance of mulching a garden.

(i) _____

(ii) _____

(c) State <u>one</u> danger of the sun.

_____

55. <u>Use the words below to fill in the gaps below correctly.</u>

mosquitoes , spraying insecticides , hairy body , vectors

_____ are living organisms that spread disease germs. Examples of common vectors are houseflies, _____ and cockroaches. House flies are able to spread germs using their _____ . We control vectors by draining stagnant water and _____ .

PAPER 4

SECTION A. (40 Marks)

1. Name the sense organ for hearing.

_____

2. Why are bees grouped under insects?

_____

3. Which activity in personal hygiene is carried out using soap?

_____

4. Who is a grandmother in an extended family?

_____

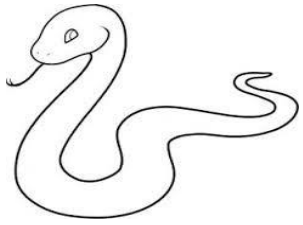
5. Give **one** example of a body-building food.

_____

6. Why do people cross a busy road at a zebra crossing?

_____

7. How does the animal below move from one place to another?



_____

8. Write down any **one** behaviour that is accepted in our community.

_____

9. Why is it dangerous to have poor feeding in children?

_____

10. What is a balanced diet?

_____

11. Why is a stone grouped under non-living things?

_____

12. How do children prevent tooth decay?

_____

13. How are floods dangerous in the environment?

_____

14. In which way is a dog useful at home?

_____

15. Name the childhood immunisable disease that makes children lame.

_____

16. What danger would a housefly get if its spiracles were blocked?

_____

17. Identify the main natural source of water.

_____

18. State **one** reason why you need a dustbin in your classroom?

_____

19. What type of weather is the best for winnowing seeds?

_____

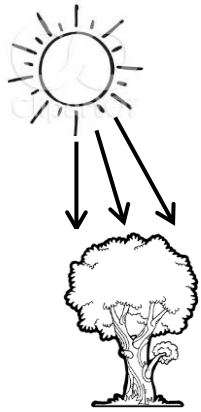
20. Why do people keep hens at home?

_____

21. How is the tool below useful in a home?

_____

22. **Complete the diagram by drawing a shadow.**



23. How is the changing of colours useful to a chameleon?

_____

24. Give **one** reason why loam soil is suitable for crop growing.

_____

25. How are fire extinguishers useful in a school?

_____

26. Why is it dangerous to look at the sun directly without sun glasses?

_____

27. How are nimbus clouds important to a crop farmer?

_____

28. How are female anopheles mosquitoes dangerous to people?

_____

29. Why is it important to bathe daily?

_____

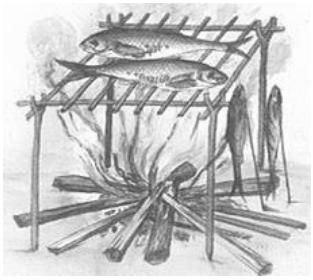
30. How is strong wind dangerous in the environment?

_____

31. Give any **one** reason why we plant trees in the school compound.

_____

32. Identify the method of preserving food shown below.



_____

33. How can we care for plants during drought?

_____

34. Identify any **one** tool that people use to keep an area clean.

_____

35. Give any **one** way of caring for garden tools.

_____

36. What is the standard unit for measuring length?

_____

37. Give any **one** importance of the sun to people.

_____

38. Name any **one** dangerous insect found in pit latrines.

_____

39. Why is it dangerous for children to play along the road?

_____

40. Draw any **one** item found in a first aid box.

SECTION B

41. (a) What is air?

_____

_____

(b) Write down any **two** components of air.

(i) _____

(ii) _____

(c) Which property of air enables us to suck soda from a bottle?

_____

42. (a) Why do people use umbrellas on a rainy day?

_____

(b) Give any **two** dangers of too much rain to people.

(i) _____

(ii) _____

(c) Draw any **one** item used for harvesting rain water.

43. (a) Draw the following items used to keep the body clean.

toothbrush	**comb**

(b) Give any **one** danger of failing to clean your body.

_____

(c) How do you care for your hair?

_____

44. (a) Write down any **two** animals at home whose meat we eat.

(i) _____

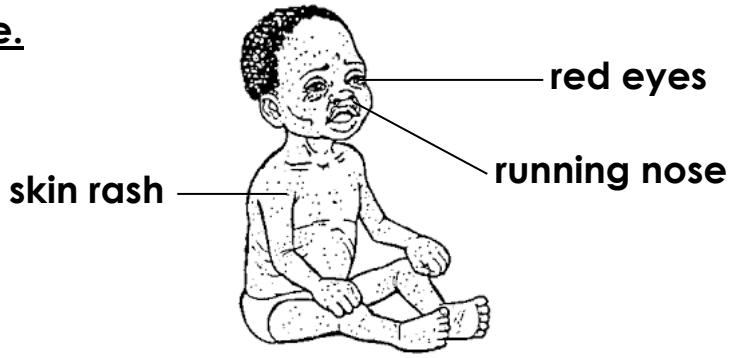
(ii) _____

(b) State any **two** ways we can care for the animals above.

(i) _____

(ii) _____

45. **<u>The picture below shows a child suffering from an immunisable disease.</u>**



(a) Name the disease the child is suffering form.

_____

(b) How is the above disease prevented in children?

_____

(c) Apart from the above disease, give **one** other immunisable disease you know.

_____

(d) Give any **one** way of caring for sick people.

_____

46. (a) What is germination?

_____

_____

(b) Apart from water, name any other **two** conditions necessary for germination.

(i) _____

(ii) _____

(c) Give another use of seeds to people at home.

_____

47. (a) Name any **one** living component of soil.

_____

(b) Give any **two** ways of keeping soil fertile.

(i) _____

(ii) _____

(c) How is soil formed?

_____

_____

48. <u>Match the words in A with those in B correctly</u>.

A	**B**
Cow	den
Rabbit	kennel
Lion	hutch
Dog	kraal

A	**B**
Cow	_____
Rabbit	_____

Lion _____

Dog _____

49. (a) Apart from malaria , mention any other **two** common diseases.

(i) _____

(ii) _____

(b) How can we prevent malaria at home?

_____

50. (a) What is weather?

_____

_____

(b) Write any **two** elements of weather.

(i) _____

(ii) _____

(c) Which condition of weather makes people wear gumboots?

_____

51. (a) Give **two** reasons why we should give first aid.

(i) _____

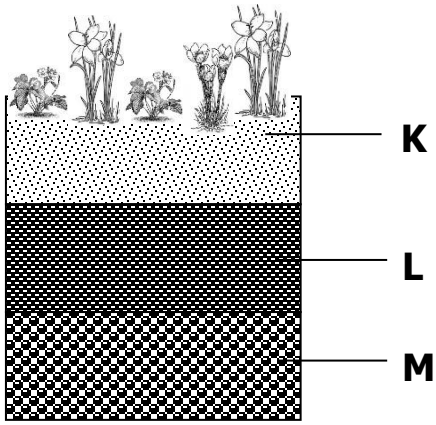
(ii) _____

(b) Write any **two** ways we can prevent accidents at home.

(i) _____

(ii) _____

52. **Use the diagram below to answer questions that follow.**



(a) What does the above diagram represent?

_____

(b) Name the layers marked **L** and **M**.

L _____

M _____

(c) Why is layer marked **K** good for plant growth?

_____

53. (a) How do the following animals move?

(i) giraffe _____

(ii) an eagle _____

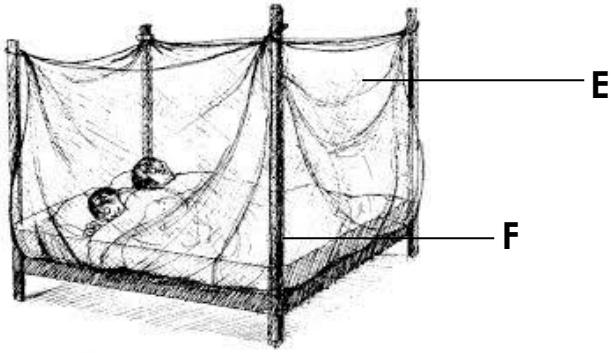
(b) Why do animals move from one place to another?

_____

(c) Write down any **one** food that can be given to hens.

_____

54. <u>The picture below shows items found in a bedroom.</u>



(a) Name the item marked **E** and **F**.

E _____

F _____

(b) Name the vector controlled by structure **E**?

_____

(c) Which disease is controlled by using item **E**?

_____

55. (a) Give any **two** reasons why people eat food.

(i) _____

(ii) _____

(b) How can food get dirty?

(i) _____

(ii) _____

PAPER 5

SECTION A

1. Which domestic animal lives in a sty?

_____

2. How is wind useful to people?

_____

3. Why do people plant short grass in their compounds?

_____

4. Identify any one material used to make the tool below.

_____

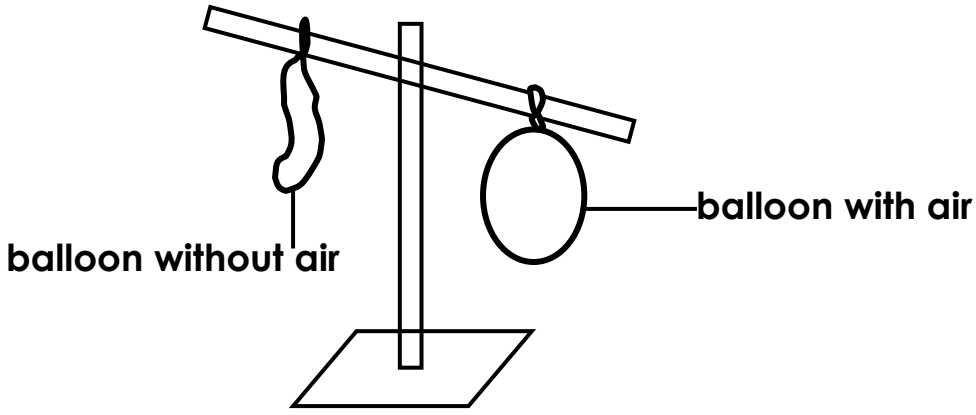
5. Give the importance of a house to people.

_____

6. Give any one use of electricity at home.

_____

The diagram below shows two balloons. Use it to answer question 7.



7. Why did the balloon with air go down?

_____

8. Give <u>one</u> way of caring for a baby at home.

_____

9. How can a P.3 child promote personal hygiene?

_____

10. Write <u>one</u> way of keeping food safe for a long time.

_____

11. Which food value is mainly obtained from fruits?

_____

12. Give <u>one</u> way of caring for water sources.

_____

13. What problem can be faced by people who don't want to brush their teeth?

_____

14. How are swamps useful in our environment?

_____

15. What does the sign post below mean?

_____

16. ple need health centres in their communities?

_____

17. Name the second stage in the growth of a cockroach.

_____

18. Which immunisable disease makes children to get skin rash?

_____

19. How can a P.3 pupil ensure proper disposal of rubbish in a class?

_____

20. Give an example of anything that can make a shadow.

_____

21. Write the use of a knife to people.

_____

22. Name <u>one</u> organism which helps to aerate soil.

_____

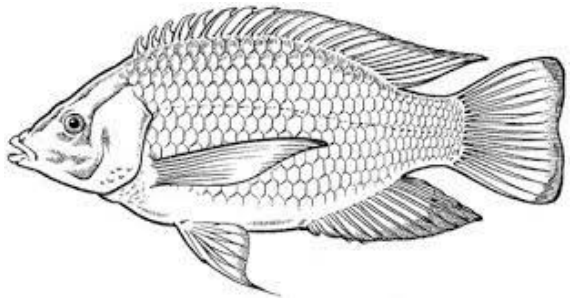
23. Give any <u>one</u> member who can join a nuclear family to make it extended.

_____

24. Why do people carry umbrellas on rainy days?

_____

<u>The diagram below shows an animal. Use it to answer the question below.</u>



25. How is water useful to the animal above?

_____

26. Give any <u>one</u> type of soil.

_____

27. Apart from nimbus clouds, give any other type of clouds.

_____

28. Name <u>one</u> part of a school which can be cleaned by scrubbing.

29. Write <u>one</u> food stuff which needs pounding in a mortar before cooking.

_____

30. Why does a chameleon change its colours?

_____

31. Give <u>one</u> method of killing mosquitoes at home.

_____

32. <u>Draw any one garden tool.</u>

33. Write any <u>one</u> source of food.

_____

34. Why do animals move from one place to another?

_____

35. Give any <u>one</u> people made change in the environment.

_____

36. Name <u>one</u> item that can be used to cut hair.

_____

37. Which problem can a person get if his ears stop working?

_____

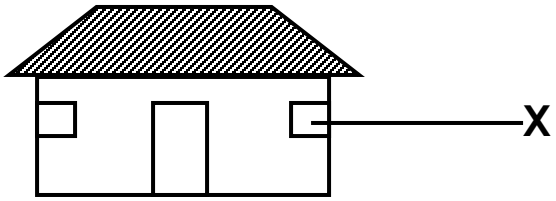
38. Name one material we can use to catch fish.

_____

39. Identify any one way animals care for their young ones.

_____

The diagram below shows a house. Use it to answer question 40.



40. Name part X.

_____

SECTION B.

41. a) Which component of air is used in fire extinguishers?

_____

b) Write any two other gases found in air.

(i) _____

(ii) _____

c) Give one danger of air to people.

_____

42. a) Name two materials used to mulch a garden.

(i) _____

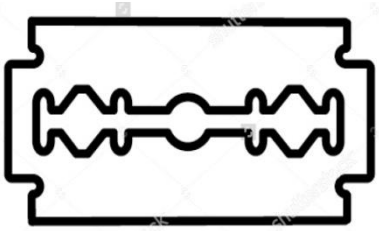
(ii) _____

(b) Give two importance of mulching a garden.

(i) _____

(ii) _____

43. **The diagram below shows a common tool.**



a) Name the tool shown above.

_____

b) How is the above tool useful to people?

(i) _____

(ii) _____

c) Give the danger that can be caused by the tool above.

_____

44. a) Give any two uses of trees to people.

(i) _____

(ii) _____

b) Name one animal which lives in trees.

_____

c) Name any one tree that gives us fruits.

_____

45. a) From which material are bricks made?

_____

b) Give any one use of bricks.

_____

c) Name two things used to make a roof of a house.

(i) _____

(ii) _____

46. a) What is a balanced diet?

_____

_____

b) Give <u>two</u> uses of food in our bodies.

(i) _____

(ii) _____

c) State <u>one</u> danger of poor feeding.

_____

47. a) Name <u>two</u> items used to cook food.

(i) _____

(ii) _____

b) Give <u>two</u> ways of caring for utensils in the kitchen.

(i) _____

(ii) _____

48. a) What is sanitation?

_____

_____

b) <u>Draw these items used to promote sanitation.</u>

broom	rake

c) Write any <u>one</u> danger of poor sanitation.

_____

49. a) How is a sickbay useful to a primary three pupil?

_____

b) Name any <u>one</u> person who works in a sickbay.

_____

c) Write <u>one</u> item found in a sick bay.

_____

d) Why should a sickbay be kept clean?

_____

50. a) Name any <u>two</u> places where wild animals live.

(i) _____

(ii) _____

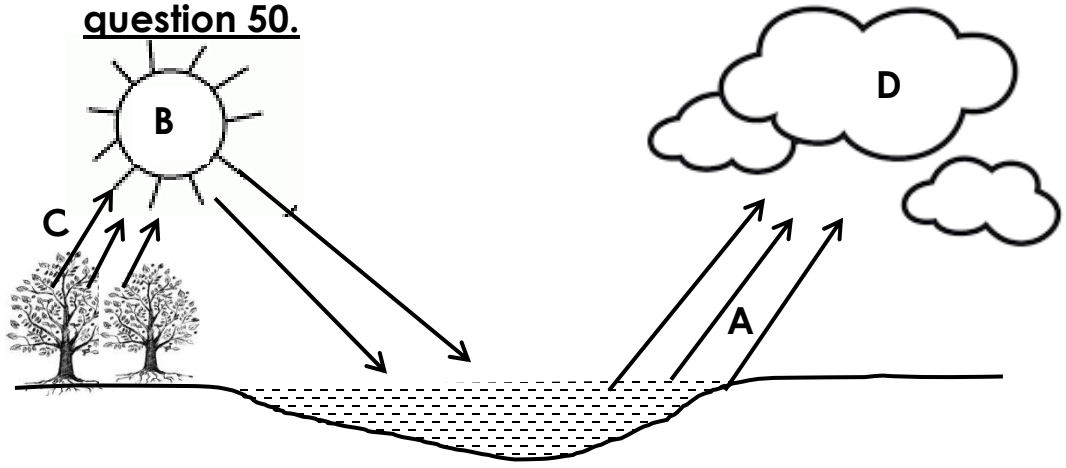
b) How are wild animals useful to people?

_____

c) Write <u>one</u> danger of wild animals to people.

_____

51. <u>The diagram below shows the water cycle. Use it to answer question 50.</u>



a) Name the processes taking place at A and D.

(i) A_____

(ii) D_____

b) Name part B.

_____

c) How is part B important in the cycle above?

_____

52. a) What is first aid?

_____

_____

b) Give any two accidents that need first aid.

(i) _____

(ii) _____

c) Give any one reason for giving first aid.

_____

53. a) How are shadows formed?

_____

b) Give two uses of shadows to people.

(i) _____

(ii) _____

c) At what time of the day are shadows shortest?

_____

54. (a) Match the insects to the diseases they spread.

(i)	Houseflies	sleeping sickness
(ii)	Anopheles mosquitoes	Trachoma
(iii)	Tsetse flies	malaria

(i) House flies _____

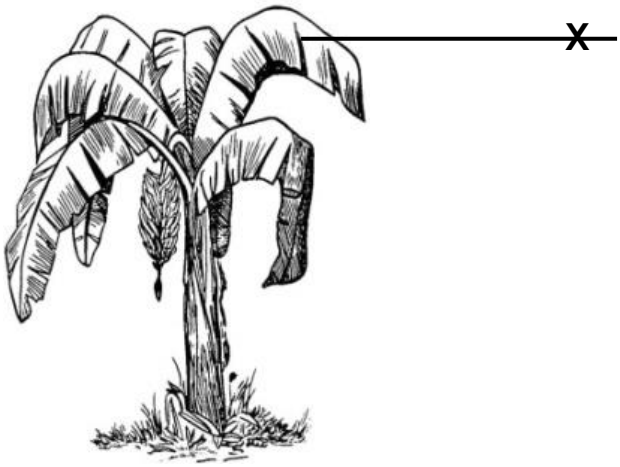
(ii) Anopheles mosquitoes _____

(iii) Tsetse flies _____

(b) Which person in our community treats a child who gets diseases?

_____

55. <u>The diagram below shows a common plant.</u>



a) Name the plant shown above.

_____

b) How is part <u>X</u> useful to the plant?

_____

c) Write <u>one</u> use of part <u>X</u> to people.

_____

d) Name the garden tool used to harvest the above plant.

_____

PAPER 6

SECTION A:

1. Name any <u>one</u> material used to keep the house clean.

   _____

2. <u>The diagram below shows a soil profile</u>.

   Name the layer of soil marked K.

   _____

3. Why can't an ostrich fly yet it has feathers on its body?

   _____

4. Name any <u>one</u> disease that has no cure.

   _____

5. Why are people encouraged to boil water for drinking?

   _____

6. Identify any <u>one</u> food stuff rich in proteins.

   _____

7. Give <u>one</u> effect of charcoal burning to the environment.

   _____

8. Write down <u>one</u> natural source of energy.

   _____

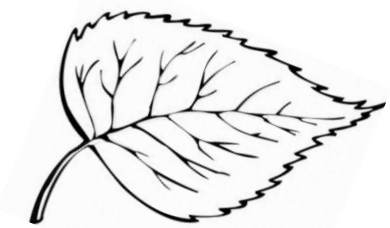
9. **Name a disease which can be controlled by sleeping under a mosquito net.**

_____

10. **Why do people plant grass in the school compound?**

_____

11. **How is the part shown in the diagram useful to a plant?**



_____

12. **Give any <u>one</u> example of a fuel commonly used at home.**

_____

13. **How can you prevent a water source like a well from contamination?**

_____

14. **Give an example of a disease which can be controlled by immunization.**

_____

15. **Which body part do you use to taste food?**

_____

16. **How is heavy rainfall dangerous in our environment?**

_____

_____

17. **To which body part of an insect are the legs attached?**

_____

18. **Why is a stone considered to be a non living thing?**

_____

19. **Name any <u>one</u> example of a wild bird.**

_____

20. **Write <u>one</u> way we can save resources at home.**

_____

21. **Identify the part of a sugarcane plant that stores food.**

_____

22. **Why do we cook food before eating it?**

_____

23. **How is a shadow useful to people?**

_____

24. **Identify any <u>one</u> common accident at home.**

_____

25. **Name any <u>one</u> element of weather.**

_____

26. **Give <u>one</u> use of things like toy cars made from artificial materials.**

_____

27. **Give any <u>one</u> role of a father at home.**

_____

28. **How is the garden tool below useful to a farmer?**

29. Name any <u>one</u> item used to manage rainy weather.

30. How are floods dangerous in the environment?

31. How is a watering can useful to a farmer in a dry season?

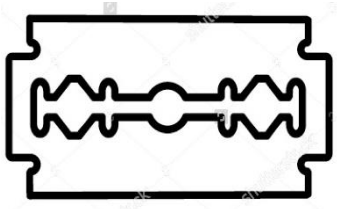
32. Why is carbon dioxide used in fire extinguishers?

33. Write any <u>one</u> PIASCY message.

34. State any <u>one</u> way a P.3 child can control the spread of malaria at home.

35. <u>In the space below, draw the animal that guards our home.</u>

36. Which accident will come as a result of playing with the object below.



_____

37. Give <u>one</u> reason why people make mats.

_____

38. Why is it advisable to brush our teeth after every meal?

_____

39. Mention any <u>one</u> animal kept in an aquarium.

_____

40. <u>The diagram below shows a sick child.</u>

Identify the immunisable disease the above child is suffering from.

_____

SECTION B

41. a) What is a balanced diet?

_____

_____

b) Mention <u>two</u> classes of food that make up a balanced diet.

(i) _____

(ii) _____

c) How is poor feeding dangerous to children?

_____

42. (a) What are domestic animals.

_____

_____

b) Give <u>two</u> examples of domestic animals that are kept for transport.

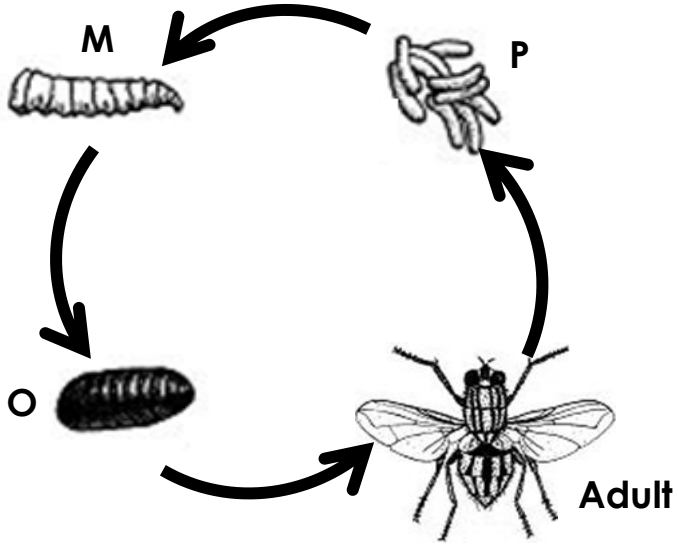
(i) _____

(ii) _____

c) How is a cow useful at home?

_____

43. <u>The diagram below shows the life cycle of a housefly. Use it to answer questions that follow.</u>



a) Name the stage marked O and P.

O _____

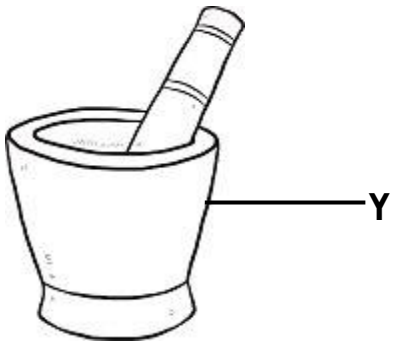
P _____

b) How is the adult stage of a housefly dangerous to people?

_____

_____

44. **Use the diagram below to answer questions that follow.**



a) Identify the tool marked Y.

_____

b) How is the above tool useful to people at home?

_____

c) Name any two food stuffs prepared in the above tool.

(i) _____

(ii) _____

45. a) Write down any one item / tool needed to do the following;

i) Milking _____

ii) Farming _____

iii) Fishing _____

b) Why do people carry out such activities in their community?

_____

46. a) How is HIV / AIDS dangerous to people?

_____

b) Write two ways we can care for AIDS patients.

(i) _____

(ii) _____

c) Give any one way we can prevent the spread of AIDS.

_____

47. a) How is soil formed?

_____

b) Give any <u>two</u> types of soil.

(i) _____

(ii) _____

c) Identify the component of soil that makes it fertile.

_____

48. a) How many legs has an insect?

_____

b) Why are termites and bees referred to as social insects?

_____

_____

b) Mention <u>two</u> ways in which insects are useful to people.

(i) _____

(ii) _____

49. <u>Match the materials used to clean the body correctly to their uses.</u>

<u>Material</u>	<u>Use</u>
Tooth brush	scrubbing dirt from the body.
Soap	brushing teeth.
Sponge	removing wax from ears.
Ear bud	kill germs on the skin.

a) Tooth brush _____

b) Soap _____

c) Sponge _____

d) Ear bud _____

50. How are the following road signs useful to road users?

(i)

_____

_____

(ii) 
_____

_____

b) Identify the colour of the traffic lights that;

(i) Lets the vehicles to move _____

(ii) Stops the vehicles _____

51. a) How are doctors and nurses useful in our sub-country?

_____

b) Name any <u>one</u> place where doctors and nurses work.

_____

c) What special name is given to the vehicle that transports people who have got accidents to the hospital?

_____

d) Name any <u>one</u> hospital you know in Uganda.

_____

52. a) What is weather?

_____

_____

b) How are the following elements of weather useful to people;

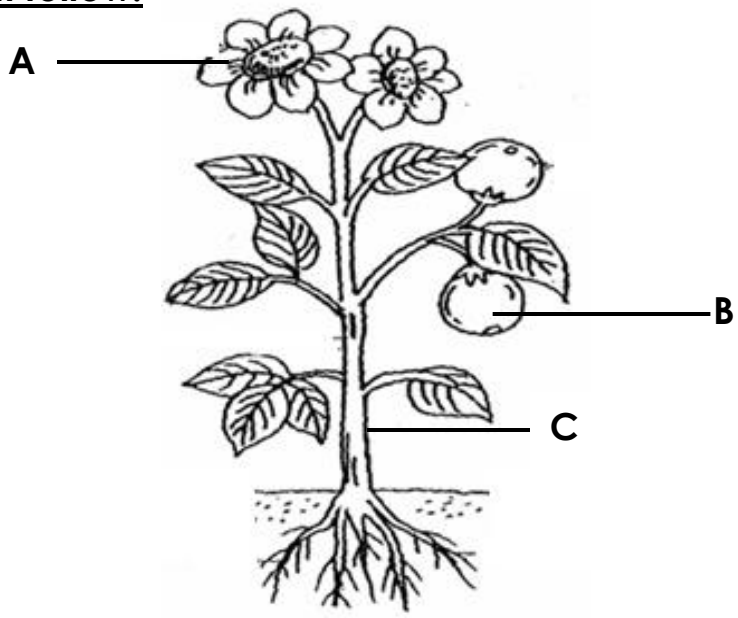
(i) Sunshine - _____

(ii) Rainfall - _____

c) State the importance of the sun in a water cycle.

_____

53. <u>Below is a diagram of flowering plant, use it to answer the questions that follow.</u>



a) Name parts labelled A and C.

A _____

B _____

C _____

b) Use letter T to show the part that makes food for the plant.

54. What is First aid?

_____

_____

b) Give <u>two</u> reasons why we give first aid.

(i) _____

(ii) _____

c) Identify any <u>one</u> place where we find a first aid box.

_____

55. Use the words below to fill the gaps correctly.

diarrhoeal diseases , rakes , scrubbing , sanitation

_____ is the general cleanliness of our environment. We can keep places clean by sweeping, slashing, mopping and _____ .

We use tools like brooms, slashers, rags and _____ to keep our environment clean. People practice good sanitation to prevent _____ .

PAPER 7

SECTION A (40 marks)

1. Name any **one** animal kept at home.

   _____

2. Give any **one** way of preventing accidents at home.

   _____

3. How can you keep your body clean**?**

   _____

The picture shows a wild animal.

4. Name the animal shown above.

   _____

5. How do birds move from one place to another**?**

   _____

6. Name any **one** food we get from animals.

   _____

7. Name any **one** fruit crop in your school compound.

   _____

8. How are insects useful in our community**?**

   _____

9. Identify any **one** component of soil.

_____

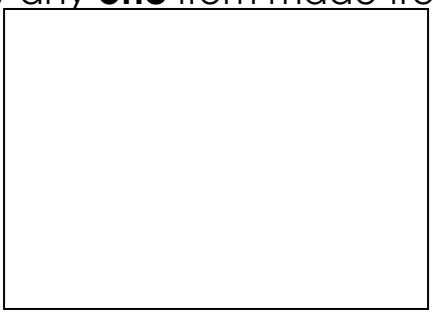
10. Name any **one** thing a plant needs to grow well.

_____

11. Give any **one** activity carried out by farmers during the wet season.

_____

12. Draw any **one** item made from banana fibres.



13. How can a P.3 child manage rainy weather**?**

_____

14. How is the sun important to people**?**

_____

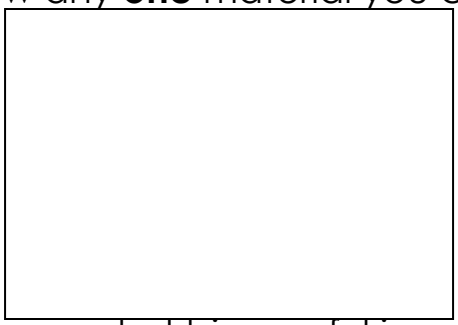
15. Which human body organ is used for smelling**?**

_____

16. Give any **one** way of controlling soil erosion.

_____

17. Draw any **one** material you can use to clean your body.



18. How are dust bins useful in our classrooms**?**

_____

19. What is the use of food in your body**?**

_____

20. How does a dog protect itself against its enemies**?**

_____

21. Which type of soil has the biggest soil particles**?**

_____

22. Identify any **one** common accident at home.

_____

23. Name any **one** insect that lives in soil.

_____

24. Identify any **one** use of cats at home.

_____

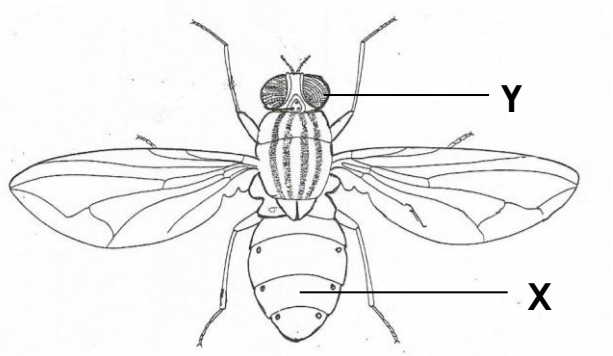
25. How is humus formed**?**

_____

26. Identify any **one** item used for clearing bushes around our school.

_____

27. The diagram below is of an insect. Name part marked **X**.



X _____

28. What is the use of the part marked **Y** to the insect**?**

_____

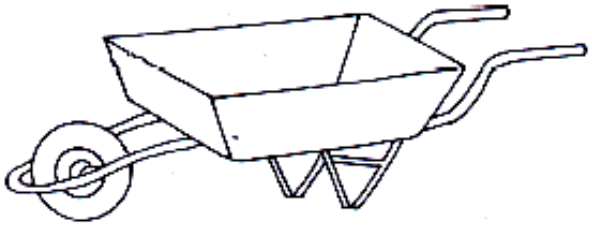
29. Give the importance of keeping food safe.

_____

30. How can you care for plants**?**

_____

31. Give the use of the garden tool shown below.



_____

32. Why is the third layer of a soil profile not good for crop growing**?**

_____

The diagram below shows a human sense organ.

33. Identify the sense organ shown above.

_____

34. Give any **one** material people can use to make balls.

_____

35. Give any **one** insect which protects its self by stinging**?**

_____

36. Why do people brush their teeth every after a meal**?**

_____

37. Which type of family has parents and biological children only**?**

_____

38. How can a dog be dangerous to people**?**

_____

39. Name any **one** immunisable childhood disease.

_____

40. Give any **one** danger of putting on dirty clothes.

_____

SECTION B (60 MARKS)

41. (a) Briefly explain the meaning of first aid.

_____

(b) State any **one** reason for giving first aid.

_____

(c) Draw and name **two** items used in giving first aid.

42. (a) Apart from hides, mention any **one** other product got from a cow.

_____

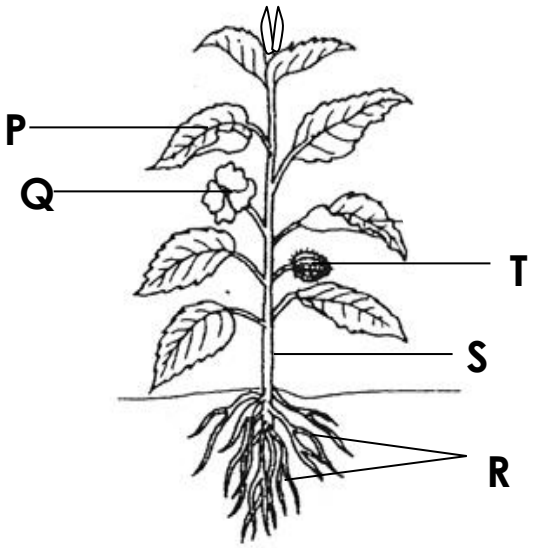
(b) Give any **one** way of caring for cows at home.

_____

(c) Draw these items made from animal hides.

drum	belt

43. **Below is a flowering plant, use it to answer questions that follow.**



(a) Name the parts marked **T** and **S**.

(i) **T** _____ (ii) **S** _____

(b) Give the function of parts marked **P** and **R**.

(i) **P** _____

(ii) **R**_____

44. **Match the animals to their weapons correctly.**

Animal	**weapon**
(a) goat	claws
(b) bee	hands
(c) person	horns
(d) cat	sting
	prickly hair

(a) goat _____

(b) bee _____

(c) person _____

(d) cat _____

45. **The diagrams below shows types soil.**

(a) Name the type of soil marked with letters **A**, **B** and **C**.

(i) **A**_____

(ii) **B** _____

(iii) **C** _____

(b) Which letter shows the type of soil which allows water to pass through easily**?**

_____

46. **The diagram below shows part of the human body.**

(a) Name the part shown above.

_____

(b) Give the use of the part shown above to people.

_____

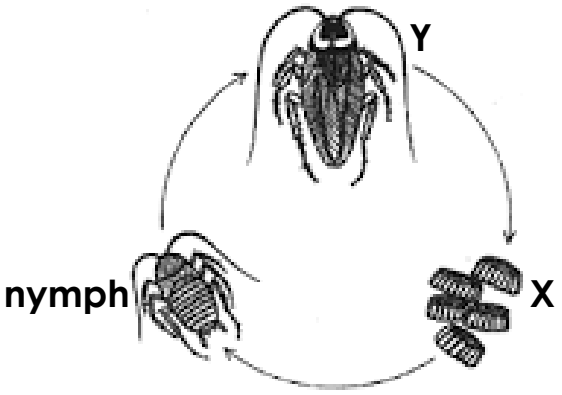
(c) How do you care for that part**?**

_____

(d) Write any one thing used in cleaning the above part of the body.

_____

47. **Study the life cycle of a cockroach.**



(a) Name these stages.

(i)**X** _____ (ii) **Y** _____

(b) Mention any **two** diseases spread by the insect above.

(i) _____

(ii) _____

48. (a) Name any **two** places where you can be taken when you are sick.

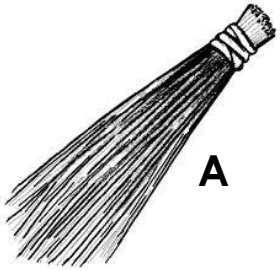
(i) _____

(ii)_____

(b) Write the use of water to a first aider.

(c) Name the items below that are used by first aiders.

49. (a) How can you use these things for keeping your bedroom clean**?**



A

B

(i) **A**_____

(ii) **B**_____

(b) Why do people keep their homes clean**?**

_____

(d) Draw a tool used for cutting grass.

50. (a) Identify any **two** wild animals.

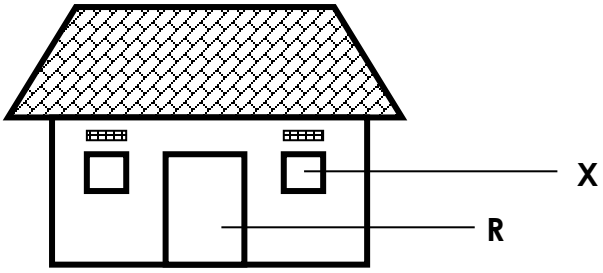
(i) _____ (ii)_____

(b) State the homes of these animals

(i) Fish _____

(ii) Monkey _____

51. **The diagram below shows a house**.



(a) Name the parts marked **X** and **R**.

(i) **X** _____ (ii)

R_____

(b) Write any **two** things used when building a house.

(i) _____ (ii) _____

52. (a) Name any **one** type of family in your village.

_____

(b) Give any **one** role of the following people in a family.

(i) child _____

(ii) mother _____

(iii) father _____

53. Name the young ones of the animals below.

(a) Cow _____

(b) Goat _____

(c) Dog _____

(d) Cat _____

54. (a) In **one** sentence, give the meaning of the word weather.

_____

_____

(b) Write any **two** elements of weather.

(i)_____

(ii)_____

(c) Which type of weather is managed by using an umbrella**?**

_____

55. (a) Name any **two** food stuffs eaten at home.

(i) _____

(ii) _____

(b) Write any **two** use of food in the human body.

(i) _____

(ii) _____

PAPER 8

SECTION A

1. Name any <u>one</u> domestic animal with horns.

_____

2. How are ears useful to a P.3 child?

_____

3. Why is it not good to cross the road carelessly?

_____

4. How is a sting useful to a bee?

_____

5. Name any <u>one</u> animal which uses a nest as its habitat.

_____

6. Why is a fire extinguisher painted with bright colours?

_____

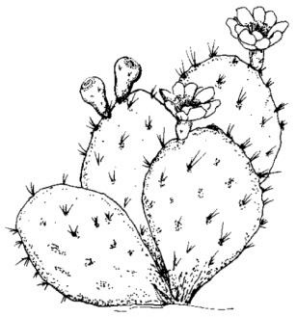
7. How can we protect our bodies from catching skin diseases?

_____

8. Why should farmers mulch their gardens?

_____

9. How is the plant below harmful to people?



_____

10. Name the sense organ for tasting.

_____

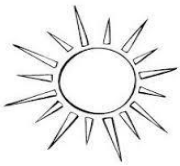
11. **Why is a grasshopper grouped under insects?**

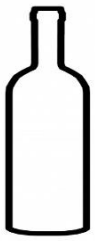
_____

12. **Write any <u>one</u> common accident at home.**

_____

13. **Complete the diagram to form the shadow.**





14. **Why should a home have a dust bin?**

_____

15. **Why do dogs bark at strangers in our homes?**

_____

16. **How can we prevent soap from spreading into eyes when bathing?**

_____

17. **Which part of a cassava plant do people eat?**

_____

18. **Name any <u>one</u> method of preserving food.**

_____

19. **Why do we give first aid to casualties?**

_____

20. **How are wild animals useful to people?**

_____

21. Write down any <u>one</u> effect of accidents to people.

_____

22. <u>Draw one item used to manage rainy weather.</u>

23. Give <u>one</u> use of trees in our school compound.

_____

24. Give any <u>one</u> use of clay at home.

_____

25. Name any <u>one</u> pest.

_____

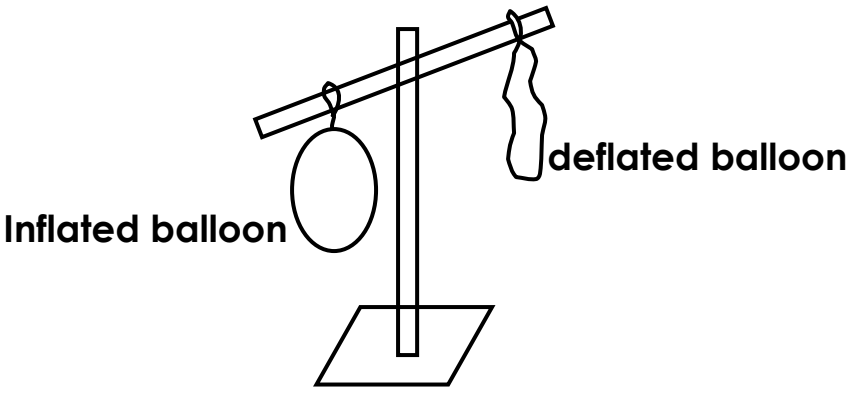
26. Give <u>one</u> way you can care for your eyes.

_____

27. Why do animals like chameleons change colour?

_____

28. <u>Name the property of air shown in the diagram below.</u>



29. How is poor feeding dangerous to children?

30. Why should people sleep under mosquito nets?

31. Give one use of leaves to a plant.

32. Identify one member of an extended family who is not found in a nuclear family.

33. Why are children taken for immunisation?

34. Give one non-curable disease.

35. How is a knife useful in a kitchen?

36. Give one use of food to the body.

37. State any one product got from cows.

38. How are spiracles useful to an insect?

39. **Draw one object used in the cleaning of our teeth.**

40. **Give one use of a beak to a bird.**

_____

SECTION B

41. **Below are diagrams of animals.**

	A	**B**

(a) **Name animals labelled A and B.**

A _____

B _____

(b) **Give one use of animal A to us.**

_____

(c) **Why is animal lablled B grouped under wild animals?**

_____

42. (a) Give one use of sunglasses to people on a sunny day.

_____

(b) Why are we advised to harvest cereal crops in a dry season?

_____

(c) Give one danger of too much rainfall to farmers.

_____

(d) Why should a farmer first dry cereals before storing them?

_____

43. (a) What is first aid?

_____

_____

(b) State any two importance of first aid.

(i) _____

(ii) _____

(c) Name any one sharp object that can cause harm to the body.

_____

44. (a) Name any two common diseases in our sub-county.

(i) _____

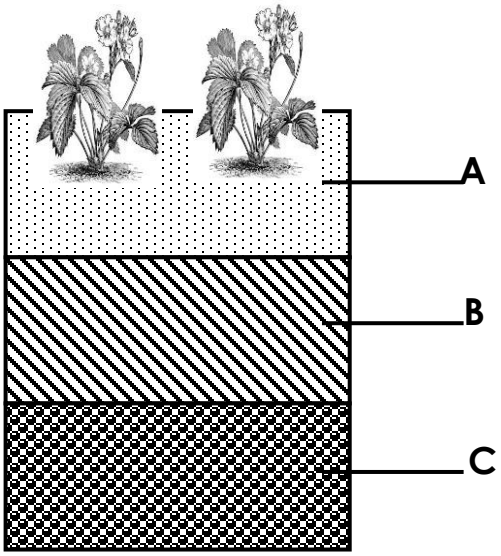
(ii) _____

(b) Give any two ways of preventing common diseases.

(i) _____

(ii) _____

45. **Below is a diagram of soil profile.**



(a) Name soil layers A and B.

(i) A _____

(ii) B _____

(b) Give any one way on which soil is formed.

_____

(c) State one way of keeping soil fertile.

_____

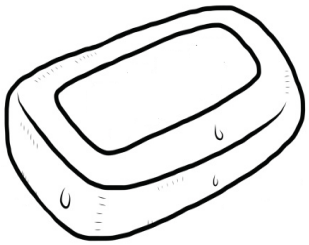
46. (a) Name any one item used to trim finger nails.

_____

(b) Give one reason why we should brush our teeth after every meal.

_____

(c) **Name these items used in keeping our bodies clean.**

47. **Arrange the following sentences in their correct order.**

1. The clouds become heavy and fall as rain.
2. The sun heats water in the water body.
3. The water vapour condenses to form nimbus clouds.
4. The water evaporates in to the atmosphere.

Correct order.

1. _____
2. _____
3. _____
4. _____

48. (a) Name any two objects made out of local materials.

(i) _____

(ii) _____

(b) Identify any two local materials used to make local objects.

(i) _____

(ii) _____

49. **Below is a diagram of a garden tool.**

(a) Identify the above garden tool.

_____

(b) How is the above garden tool useful to a farmer?

_____

(c) How can we take care of the above garden tool?

(i) _____

(ii) _____

50. **Match A with B correctly.**

A - cow , pig , lion , dog

B - kennel , den , pigsty , byre

A	B
Cow	_____
Pig	_____
Lion	_____
Dog	_____

51. (a) Name any two common insects.

(i) _____

(ii) _____

(b) Give two uses of insects to people.

(i) _____

(ii) _____

52. (a) Why do we eat food?

_____

(b) Why should some food be cooked before eating it?

_____

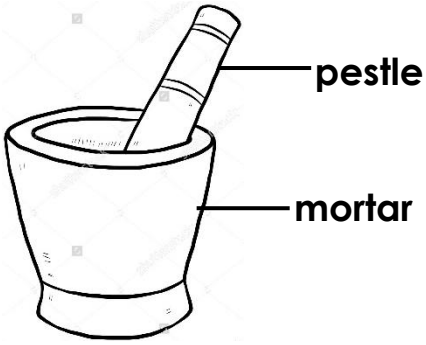
(c) What is the best food for babies of one month?

_____

(d) Name <u>one</u> class of food.

_____

53. <u>The diagram below shows materials used in the preparation of food stuffs.</u>



(a) Name <u>one</u> material used to make the above tools.

_____

(b) Write any <u>two</u> food stuffs prepared using the above tools.

(i) _____

(ii) _____

(c) Why should the above tools be kept clean?

_____

54. (a) What is soil erosion?

_____

_____

(b) Give any <u>two</u> agents of soil erosion.

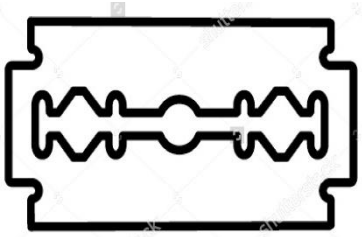
(i) _____

(ii) _____

(c) How can you control soil erosion in your home compound?

_____

55. <u>The diagram below shows one of the materials in a first aid box.</u>



(a) Identify the material shown above.

_____

(b) How is the above material useful to people?

_____

(c) Identify any <u>one</u> accident which can be caused by carelessly using the above material.

_____

(d) Give the use of a first aid box to a first aider.

_____

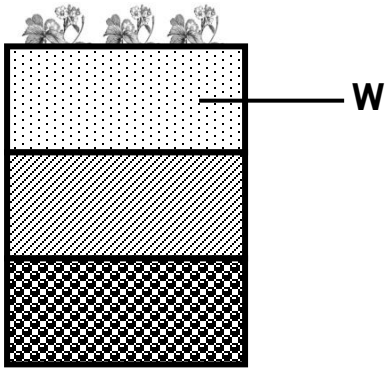
PAPER 9

SECTION A:

1. Name one material which can be made from sisal.

_____

2. The diagram below shows a soil profile.



Name the layer of soil marked W.

_____

3. Identify one danger of heavy rainfall in the environment.

_____

4. What is the use of brooms in our classes?

_____

5. Write down one common characteristic of insects.

_____

6. Identify any one group of people who help in traffic.

_____

7. Give one danger of cutting down many trees in the environment.

_____

8. **The diagram below shows a home of an animal.**

Name it _____

9. **Give one common fuel used for cooking at home.**

_____

10. **Why is it dangerous to play near a cooking place?**

_____

11. **Name the main body part of an insect on which the legs are attached.**

_____

12. **How can we prevent food from getting contaminated?**

_____

13. **Why do we wash our hands after picking rubbish?**

_____

14. **Why is a spider not considered to be an insect?**

_____

_____

15. **How can farmers control soil erosion in their gardens?**

_____

16. **Identify any one good health practice you know.**

_____

17. **How is a zebra crossing useful to pedestrians?**

_____

18. Identify any <u>one</u> danger of diarrhoea to a patient.

_____

19. Why is clay soil the best soil to use when making pots?

_____

20. How is the item below useful in promoting personal hygiene?

_____

21. Write any <u>one</u> property of air.

_____

22. Why do farmers spray crops in the garden?

_____

23. Why do farmers keep garden tools in a cool dry place?

_____

24. How is a toilet useful to people?

_____

25. Name any <u>one</u> childhood immunisable disease.

_____

26. Identify any <u>one</u> source of food.

_____

27. Name any <u>one</u> item we use in the kitchen.

_____

28. In which way are strong winds dangerous to plants?

_____

29. How is water useful during germination?

_____

30. In which <u>one</u> way is oxygen gas useful to people?

_____

31. Give <u>one</u> way people can care for their eyes.

_____

32. <u>Draw and name one material made from banana fibres.</u>

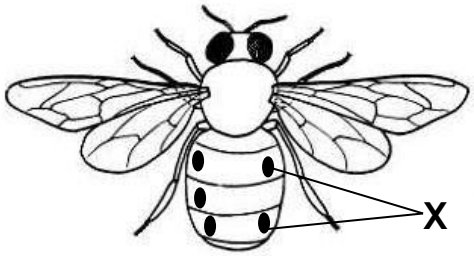
33. How can a P.3 pupil help to control the spread of malaria at home?

_____

34. State <u>one</u> way of keeping food safe.

_____

35. How are parts marked X useful to an insect?



_____

36. Name any <u>one</u> item at home used for grinding millet.

_____

37. Give one way we can keep ourselves safe from accidents at home.

_____

38. Why do animals move from one place to another?

_____

39. Why is an antelope grouped under living things?

_____

40. Identify any one reason why people make mats.

_____

SECTION B

41. a) What is an accident?

_____

_____

b) Name one cause of accidents on the road.

_____

c) Write any two effects of an accident to a person.

(i) _____

(ii) _____

42. a) Apart from air , name one component of the environment.

_____

b) In which way is the component of air with 0.03% useful to plants?

_____

c) Write down any two properties of air.

(i) _____

(ii) _____

43. What is wind?

_____

_____

b) Apart from wind, name <u>two</u> elements of weather.

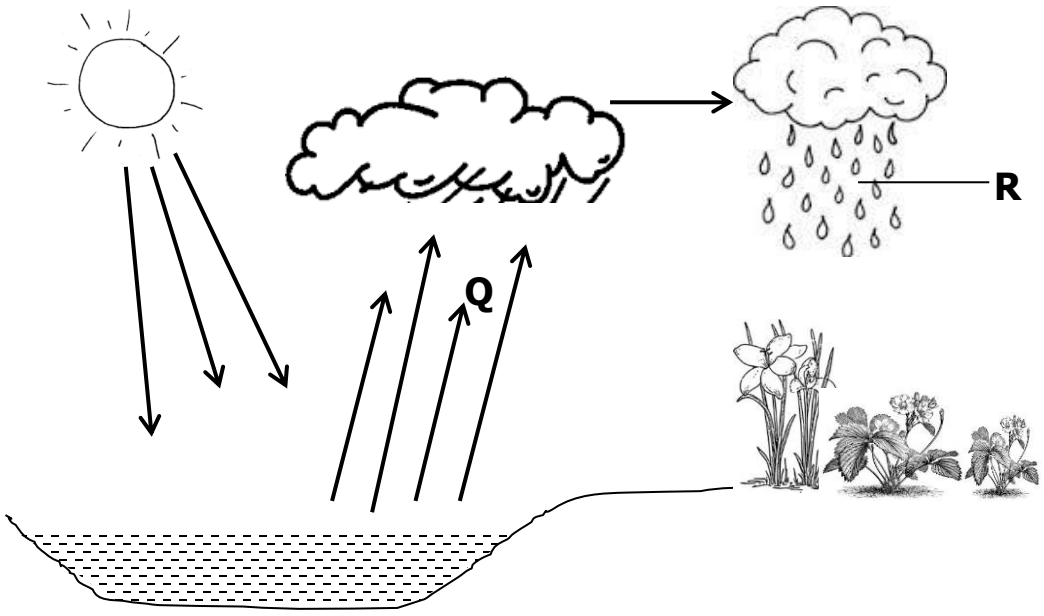
(i) _____

(ii) _____

c) State any <u>one</u> way of managing rainy weather.

_____

44. <u>Study the diagram below shows a natural process.</u>



a) Name the cycle shown above.

_____

b) How is the sun useful in the above process?

_____

c) Name the process taking place at Q.

_____

d) Which clouds give us rain?

_____

45. a) Give any <u>one</u> use of food in the body.

_____

b) State any <u>one</u> danger of poor feeding.

_____

c) Mention any <u>two</u> sources of food in your division / subcounty.

(i) _____

(ii) _____

46. <u>Use the diagram below to answer questions that follow.</u>

a) Identify the above item.

_____

b) Give <u>one</u> use of the above item in a school.

_____

c) Name the part of air found in the item above.

_____

d) Who in a school can use the above item?

_____

47. a) Why is a duck grouped as a domestic bird?

_____

b) Apart from a duck, name one other example of a domestic bird.

_____

c) Give any two uses of domestic birds to people.

(i) _____

(ii) _____

48. a) What is a family?

_____

_____

b) Identify any one type of a family.

_____

c) Name any two members of family.

(i) _____

(ii) _____

49. a) How are the following types of soil useful in your division?

(i) sand _____

(ii) clay _____

b) Mention any one organism that stays in soil.

_____

c) Why is loam soil the best for plant growth?

_____

50. a) How is the sun useful in the environment?

_____

b) Give one danger of the sun.

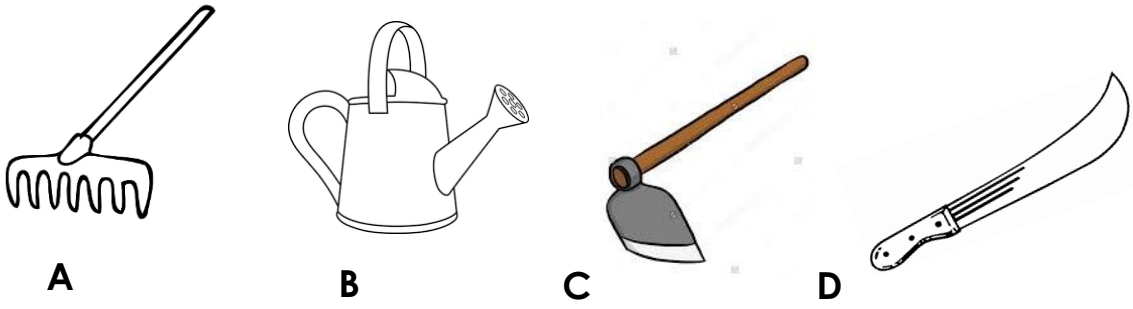
_____

c) Which type of weather is best for the following human activities?

(i) Winnowing seeds _____

(ii) Drying harvested crops _____

51. <u>Below are some of the garden tools. Use them to answer the questions that follow.</u>



A B C D

a) Name the garden tool labelled D.

_____

b) How are the garden tools labelled A and C useful to farmers?

(i) Garden tool A _____

(ii) Garden tool B _____

(iii) Garden tool C _____

52. a) What are domestic animals?

_____

_____

b) Which domestic animal is kept for wool production?

_____

c) Identify any <u>one</u> product made from skins or hides.

_____

c) How are animal wastes useful to farmers?

_____

53. **Match correctly.**

Fish	Walking
Snake	Jumping
Frog	Swimming
Man	Slithering

Fish _____

Snake _____

Frog _____

Man _____

54. What is First aid?

_____

_____

b) Mention any two reasons why we give first aid.

(i) _____

(ii) _____

c) Name any one item used in giving First aid.

_____

55. Name any two childhood immunisable diseases.

(i) _____

(ii) _____

b) Identify any one place where children are taken for immunization.

_____

c) Mention one group of people who carry out immunization.

_____

PAPER 10

SECTION A. (40 Marks)

1. Name any one useful insect.

_____

2. Why does a leopard move from one place to another?

_____

3. How is a toilet useful in a school?

_____

4. Why is a cockroach grouped under insects?

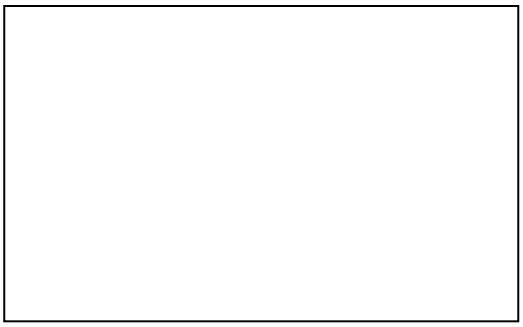
_____

5. Give one danger of growing crops near anthills.

_____

_____

6. Draw the part of a plant used to make food.



7. Name any one childhood immunisable disease.

_____

8. During what time of the day are shadows shortest?

_____

9. In the space below, draw and name one item made from animal skin.

10. How is a dog useful in a home?

_____

11. Give the use of a beak to a hen.

_____

12. What is soil erosion?

_____

_____

13. Write one use of mulching a garden.

_____

14. Apart from mulching, how else can you care for crops in the garden?

_____

15. Why is an ostrich unable to fly?

_____

16. How are floods dangerous in an area?

_____

17. Why are pedestrians advised to cross a busy road at a zebra crossing?

_____

18. Give one danger of poor feeding to a child.

19. Write any <u>one</u> source of food.

_____

20. Why is loam soil the best for crop growing?

_____

21. How are nimbus clouds important in our sub-county?

_____

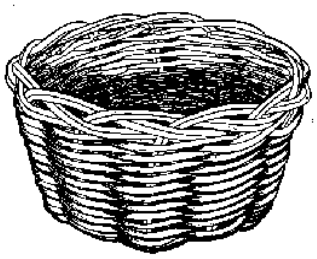
22. Name the main natural source of heat and light.

_____

23. How is water important in a kitchen?

_____

<u>The diagram below shows a local tool.</u>



24. Give any <u>one</u> use of the tool above to a crop farmer.

_____

25. Which component of air helps a candle to burn?

_____

26. How can farmers control pests in the garden?

_____

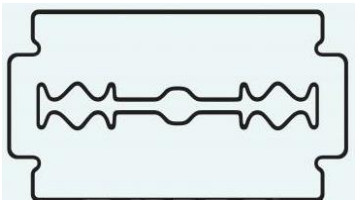
27. What is the best season for planting seeds?

_____

28. Why should children not play near sharp objects?

_____

The diagram below shows an item kept in a first aid box.



29. **Give the use of the above item to people.**

_____

30. **How can people care for domestic animals at home?**

_____

31. **Name any one crop grown in the swamps.**

_____

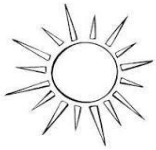
32. **Name one type of life cycle.**

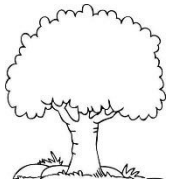
_____

33. **How is a rain gauge useful at a weather station?**

_____

34. **Draw the shadow formed correctly.**





35. **Name one item that can be used to keep the environment clean.**

_____

36. **Why do fish move from one side of a river to another?**

_____

37. Name any <u>one</u> element of weather.

_____

38. Write any <u>one</u> way of controlling malaria at home.

_____

39. State any <u>one</u> time when you are supposed to wash hands.

_____

40. Give any <u>one</u> example of a fruit.

_____

SECTION B

41. <u>Below is an instrument used to preserve food.</u>

(a) Identity the above instrument.

_____

(b) Name any two food stuffs preserved in the above instrument.

(i) _____

(ii) _____

(c) Why is food preserved?

_____

42. (a) What is air?

_____

(b) Write any <u>two</u> components of air.

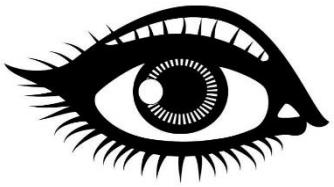
(i) _____

(ii) _____

(b) Give any <u>one</u> property of air.

_____

43. <u>The diagram below shows a body organ. Use it to answer question 43.</u>



(a) Name the above body organ.

_____

(b) Apart from the above organ, name <u>one</u> other body organ.

_____

(c) Identify any <u>one</u> disease that affects the above organ.

_____

(d) How can we take care of the above organ?

_____

44. (a) Why is a maize plant referred to as a flowering plant?

_____

(b) Give <u>two</u> uses of leaves to plants.

(i) _____

(ii) _____

(c) Why do plants with weak stems climb others?

_____

_____

45. (a) What is an accident?

_____

_____

(b) Name any <u>two</u> common accidents.

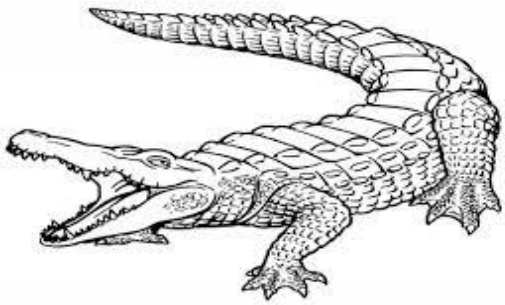
(i) _____

(ii) _____

(c) How do you help a friend who has got an accident?

_____

46. <u>Use the diagram below to answer questions that follow.</u>



(a) Identify the above wild animal.

_____

(b) What does the above animal use to hold its food?

_____

(c) Give the danger of the above animal to people.

_____

(d) Write any <u>one</u> use of the above animal to people.

_____

47. (a) Why do people need a balanced diet?

_____

(b) Why do we eat food?

_____

(c) Why is it dangerous to eat food with unwashed hands?

_____

(d) Name <u>one</u> disease that is a result of poor feeding?

_____

48. (a) Why do people need a toothbrush?

_____

(b) Why should we bathe daily?

_____

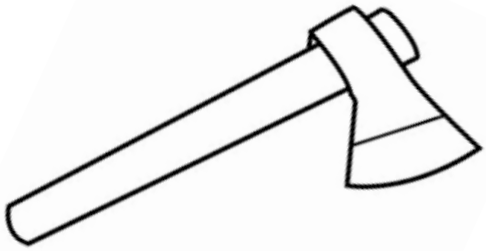
(c) Give the use of ironing clothes.

_____

(d) Why is it dangerous to wear dirty clothes?

_____

49. <u>Use the diagram below to answer questions that follow.</u>



(a) Identify the above garden tool.

_____

(b) How is the above garden tool important to a farmer?

_____

(c) How can we take care of the garden tool above?

(i) _____

(ii) _____

50. (a) Write <u>one</u> item you can use to protect yourself from sunny weather.

_____

(b) How is wind useful to a farmer?

_____

(c) How is too much rainfall dangerous in an area?

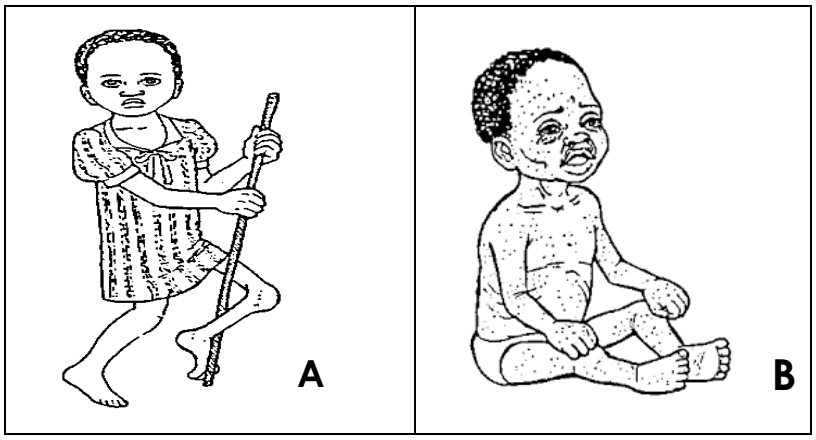
(i) _____

(ii) _____

51. (a) Why are children taken for immunization?

_____

(b) <u>The pictures below show children suffering from immunization diseases.</u>



(c) Identify the disease the above children are suffering from.

A _____

B _____

(d) How can the above diseases be controlled?

_____

52. (a) Name <u>two</u> items used in the kitchen to cook food.

(i) _____

(ii) _____

(b) Give <u>two</u> ways of caring for the items found in the kitchen.

(i) _____

(ii) _____

53. Use the diagram below to answer questions that follow.

(a) Name the soil animal above.

_____

(b) How is it useful to soil?

_____

(c) Apart from the animal above, name one other component of soil.

_____

(d) How can farmers maintain soil fertility?

_____

54. Match correctly.

A	B
Slithering	grasshopper
Flying	fish
Swimming	snake
Hopping	bird

(a) Flying _____

(b) Hopping _____

(c) Slithering _____

(d) Swimming _____

55. (a) Write any <u>two</u> common diseases.

(i) _____

(ii) _____

(b) How can we prevent malaria in our homes?

(i) _____

(ii) _____

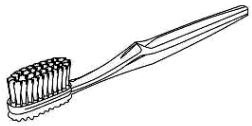
PAPER 11

SECTION A. (40 MARKS)

1. Name the body organ for smelling.

_____

2. How is the item below useful to people.



_____

3. Give **one** role of a mother at home.

_____

4. How is a zebra crossing useful to pedestrians?

_____

5. Write down **one** danger of too much sunshine in the environment.

_____

6. State **one** way you can make use of banana fibres at home.

_____

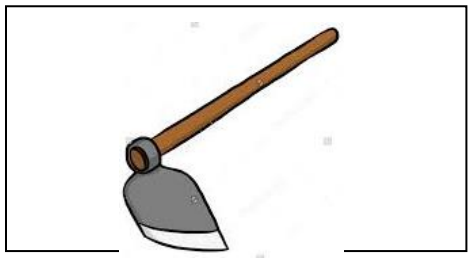
7. What is the main source of light energy in our environment?

_____

8. How does a chameleon protect itself?

_____

9. **The diagram below shows a garden tool.**



How is the above tool useful to farmers?

_____

10. Give any **one** danger of accidents to the human body?

_____

11. Write any **one** activity you can do to keep your bedroom clean.

_____

12. Give any **one** example of an object that can float on water.

_____

13. What do we call the meal that contains all food values in their correct amount?

_____

14. How can you prevent milk from going bad at home?

_____

15. How are earthworms useful in the soil?

_____

16. Write down **one** common disease which has no cure.

_____

17. How are wild animals dangerous to people?

_____

18. Give **one** way of caring for crops in the garden.

_____

19. Name any **one** component of air.

_____

20. How are nimbus clouds useful to crop farmers?

_____

21. **In the space below, draw a domestic animal with two legs.**

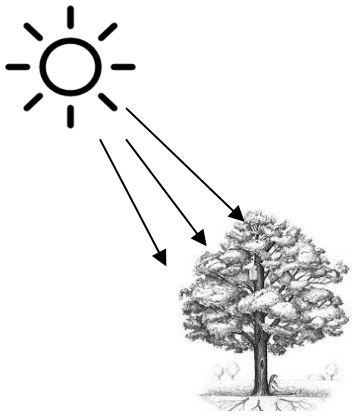
22. What is the first aid for nose bleed?

_____

23. Name any **one** item that can be used in the kitchen.

_____

24. **Complete by drawing a shadow**.



25. Why is carbondioxide used in a fire extinguisher?

_____

26. How can you make water safe for drinking at home?

_____

27. How can we care for domestic birds?

_____

28. Name any **one** animal that lives in water.

_____

29. Give any **one** basic need of people.

_____

30. How can you assist a friend who is sick at school?

_____

31. Give **one** way people can use harvested water at home.

_____

32. Name the food stuff made by bees.

_____

33. Name any **one** element of weather.

_____

34. How are trees useful in a school compound?

_____

35. Give **one** way of keeping the environment safe.

_____

36. How is a housefly dangerous to people?

_____

37. What is soil profile?

_____

_____

38. How is a latrine useful at home?

_____

39. Write down **one** importance of trees.

_____

40. **Draw a garden tool that can be used for harvesting bananas and sugarcanes.**

SECTION B

41. a) Mention any **two** sources of water.

(i) _____

(ii) _____

b) State any **two** use of water to people.

(i) _____

(ii) _____

42. a) Name any **two** immunizable diseases.

(i) _____

(ii) _____

b) Write any **one** place where immunization can be carried out.

_____

c) Identify any **one** group of people who immunize children.

_____

43. a) What is mulching?

_____

_____

b) Why do farmers mulch their gardens?

(i) _____

(ii) _____

c) Give **one** example of a material that can be used for mulching.

_____

44. **a)** **Match the animals to their habitats correctly.**

	Animal	**habitat**
(i)	cow	cobweb
(ii)	lion	anthill
(iii)	spider	den
(iv)	termite	byre

	Animal	**habitat**
(i)	cow	_____
(ii)	spider	_____
(iii)	lion	_____
(iv)	spider	_____

45. a) How is soil erosion dangerous in the garden?

_____

b) How can farmers control soil erosion in;

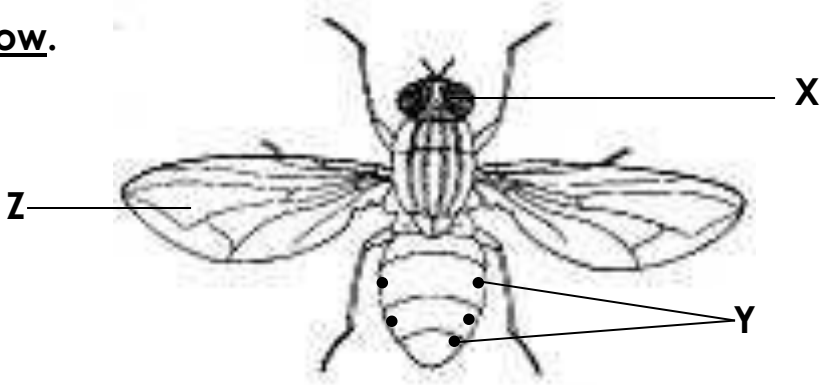
(i) school compound? _____

(ii) hilly areas? _____

c) State **one** danger of soil erosion.

_____

46. **<u>The diagram below shows an insect. Use it to answer questions that follow</u>.**



a) Name the part labeled **Y**.

_____

b) How are parts marked **X** and **Z** useful to an insect?

X _____

Z _____

c) By use of an arrow, show and name the thorax.

47. **a) Group the foodstuffs below into their classes of food**

cassava beans rice meat

Go food	_____	_____
Grow food	_____	_____

48. a) Mention any **<u>two</u>** common accidents at home.

(i) _____

(ii) _____

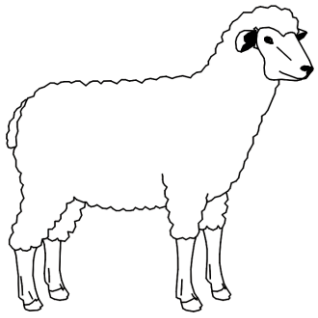
b) Write any **<u>one</u>** cause of accidents at school.

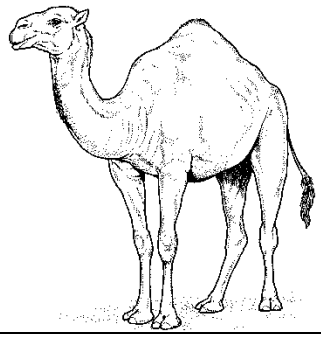
_____

c) What do we call a person who has got an accident?

_____

49. <u>Identify the domestic animals.</u>



b) How are the above animals useful to people?

(i) _____

(ii) _____

50. a) What is air?

_____

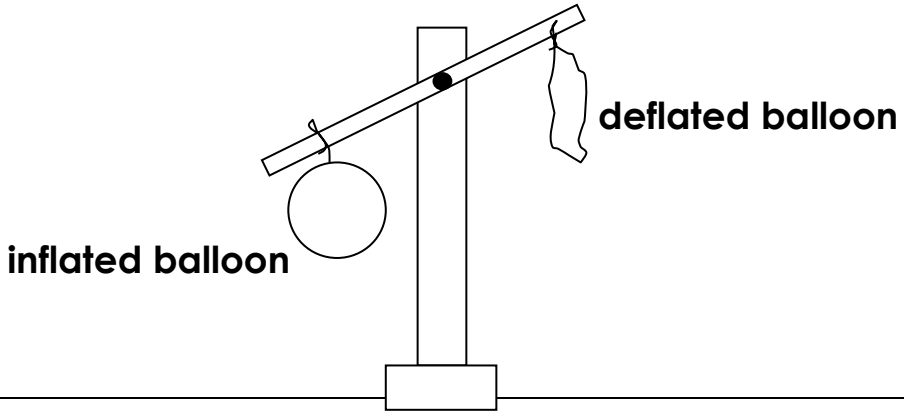
_____

b) Which component of air is needed for ;

(i) fire extinguishing - _____

(ii) burning _____

c) Identify the property of air shown in the diagram below.



_____

51. a) Why do we preserve food?

_____

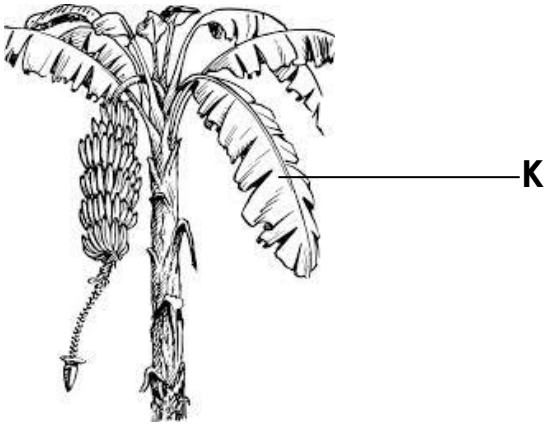
b) How can people in villages preserve the following foods?

(i) beans – _____

(ii) fish – _____

(iii) ground nuts - _____

52. <u>Study the diagram of a plant below.</u>



a) Identify the plant shown above.

_____

b) Name the part marked **K**.

_____

c) How is part marked **K** useful to people?

_____

d) How can you care for the above plant?

_____

53. a) Write down any **<u>two</u>** dangers of poor feeding.

(i) _____

(ii) _____

b) Give any **<u>two</u>** signs of a child who does not feed well.

(i) _____

(ii) _____

54. a) Give **one** example of each of the following insects.

(i) useful insects _____

(ii) harmful insects _____

b) Name the uses of birds to people.

(i) _____

(ii) _____

55. a) Name **one** thing we make at school for playing.

_____

b) Mention the material from which it is made.

_____

c) Where can we get the material in (b) above?

_____

d) Apart from playing, give **one** importance of the things we make at school.

_____

PAPER 12

SECTION A (40 Marks)

1. What term is used to mean the study of living things and non-living things?

_____

2. Name the main natural source of water.

_____

3. What is an accident?

_____

4. Why do we wash our hands with clean water and soap?

_____

5. Which type of soil is good for growing crops?

_____

6. Name the habitat for this animal.

_____

7. Why do animals move from one place to another?

_____

8. Give **one** importance of air.

_____

9. Which clouds give us rain?

_____

10. Mention **one** type of weather.

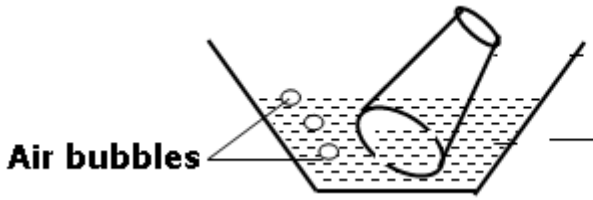
_____

11. How are bees important to man?

_____

12. Which type of accident is most likely to happen to you if you play with fire?

13. What property of air is shown below?



_____

14. Name the type of air we breathe in.

_____

15. Mention any **one** layer of soil.

_____

16. Give **one** way we can keep our environment clean.

_____

17. Name any **one** example of a natural change.

_____

18. Why do we boil drinking water?

_____

19. Which part of air is used to preserve soft drinks like soda?

_____

20. Mention any **one** common disease you know.

_____

21. Give **one** component of the environment.

_____

22. Draw and name **one** product got from clay.

_____

23. Name any **one** wild animal you know.

_____

24. What is wind?

_____

25. Which sense organ is used for smelling

_____

26. Name any **one** plant you know.

_____

27. What is formed when plants and animals decay?

_____

28. Name any **one** animal used for transport.

_____

29. What are living things?

_____

_____

30. Give **one** example of food you eat at school.

_____

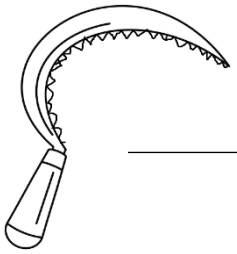
31. What do insects use for breathing?

_____

32. Why do we cut our finger nails short?

_____

33. Name this garden tool.



_____

34. What part of air occupies the biggest percentage in the atmosphere?

_____

35. What is the meaning of **'environment?**

_____

_____

36. Name the process by which rock particles are broken up into smaller particles.

_____

37. Identify by circling the non-living thing from the list below.

- cat
- dog
- car
- maize plant

38. Give **one** example of a leguminous crop.

_____

39. Mention any **one** building material.

_____

40. Name the part of a bird used for eating.

_____

SECTION B (60 Marks)

41. Match these organs with their senses

Organ	Sense
Ear	seeing
Tongue	feeling
Eyes	hearing
Skin	tasting

(i) Ear : _____

(ii) Tongue : _____

(iii) Eyes : _____

(iv) Skin : _____

42. a) Give any **two** uses of domestic animals.

i) _____

ii) _____

b) Suggest any **one** way of caring for domestic animals.

_____

c) Name any **one** product got from domestic animals.

(i) _____

43(a) List down **four** uses of water.

(i) _____

(ii) _____

(iii) _____

(iv) _____

44. (a) State any **two** common accidents.

(i) _____

(ii) _____

b) Suggest **two** ways of preventing accidents.

(i) _____

(ii) _____

45) Give one product got from the following.

(a) milk : _____

(b) animal skins : _____

(c) banana fibre _____

(d) clay : _____

46. (a) Draw these items used for keeping proper sanitation.

broom	rag	water

b) Why should we keep proper sanitation?

_____

_____

47. (a) Write down any **three** components of the environment.

(i) _____

(ii) _____

(iii) _____

b) State any **one** activity done by people to spoil the environment.

_____

48.(a) Name the part of an insect where its legs are attached.

_____

b) How many legs does an insect have?

_____

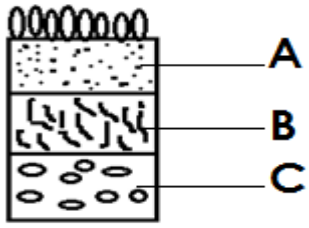
c) What name is given to the larva stage of a butterfly?

_____

d) Give **one** way a housefly is dangerous to people.

_____

49) The diagram below is of the soil profile. Use it to answer the questions that follow.



(a) Name the layers marked;

(i) B _____

(ii) C _____

(b) Why is layer A said to be the best for crop growing?

_____

_____

(c) In which layer does weathering takes place?

_____

50) (a) Match and re-write food with food values.

Food	**Value**
cassava	proteins
fish	vitamins
oranges	carbohydrates

(i) Cassava _____

(ii) Fish _____

(iii) Oranges _____

b) Why do we eat food?

_____

_____

51 (a) Give any three elements of weather.

(i) _____

(ii) _____

(iii) _____

b) Which instrument is used to measure the amount of rainfall?

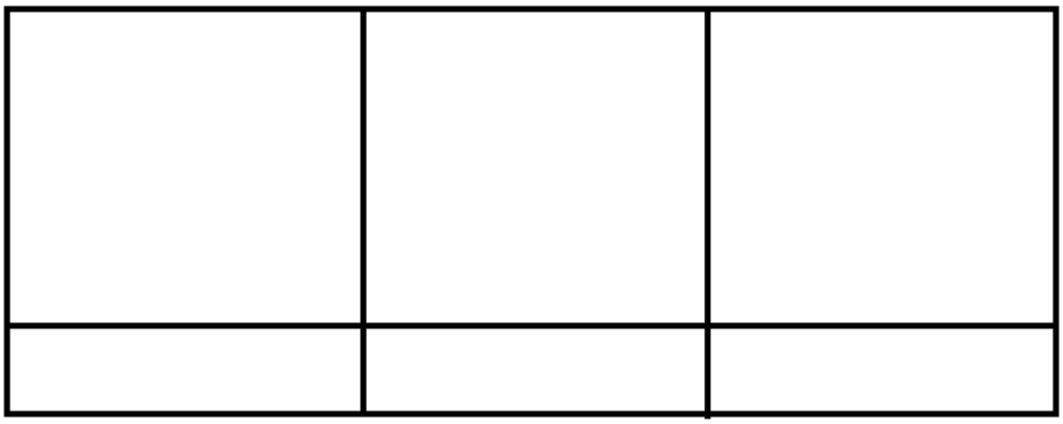
_____

52(a) What are food crops?

_____

_____

b) Draw and name any **three** examples of food crops.



53(a) Who is a casualty?

_____

_____

(b) Name any **two** things found in a first aid box.

(i) _____

(ii) _____

(c) Why do we give first aid?

_____

_____

54. Complete the story below by filling in the correct word from the box.

respire,	things,	big,	young

Living _____ are found all over the world. They are called so because they can _____, feed and produce _____ ones.

Living things are of different sizes, some are _____ and others are very small.

55. What do you understand by the term **'air'?**

_____

_____

b) Mention any **two** components of air apart from oxygen.

(i) _____

(ii) _____

c) State any **one** property of air.

(i) _____

(ii) _____

PAPER 13

SECTION A (40 Marks)

41. Name any **one** example of a domestic animal.

_____

42. Give any **one** way of keeping your classroom clean.

_____

43. State any **one** example of food eaten at home.

_____

44. Why is loam soil best for growing crops?

_____

45. Which body part is used for seeing?

_____

46. Name any **one** insect eaten by people.

_____

47. How is a charcoal stove useful at home?

_____

48. Name any **one** road sign you know.

_____

49. Draw this garden tool.

hoe

50. Write any **one** thing used for playing at school.

_____

51. Name any **one** example of fruits.

_____

52. Name any **one** item found in a first aid box.

_____

53. Write any **one** part of a plant eaten by people.

_____

54. Mention any **one** component of soil.

_____

55. How can you keep the toilet clean?

_____

56. Write any **one** item used for writing.

_____

57. Write **one** member found in an extended family.

_____

58. State any **one** material used for building.

_____

59. Why do animals move from one place to another?

_____

60. Mention any **one** type of seasons.

_____

61. What is the use of a nurse at school?

_____

62. What name is given to the young one of a goat?

_____

63. Name any **one** thing used to clean our hands.

_____

64. Name the insect that spreads malaria.

_____

65. Mention **one** example of food which gives us energy.

66. State any **one** use of soil to people.

_____

67. Name any **one** insect that contaminates our food.

_____

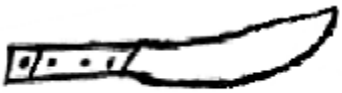
68. Name any **one** example of non-living thing found in our classroom.

_____

69. Give any **one** example of a plant.

_____

70. Which type of accident is caused by;



_____

71. Why do we need a cook at school?

_____

72. Mention any **one** room found in the house.

_____

73. Why do you give birds food at home?

_____

74. Where do you put rubbish in class?

_____

75. State any **one** example of a living thing which lives in soil.

_____

76. State any **one** thing used for mopping.

_____

77. What is the use of a cup at home?

_____

38. Mention any **one** plant grown in a garden.

_____

39. How can you keep a school compound clean?

_____

40. Name this material used to fetch water.

_____

SECTION B (60 Marks)

41. What is food?

_____

b) State any **one** use of food in the body.

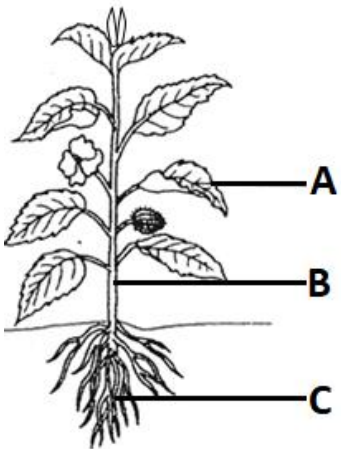
_____

c) Mention **two** items used to cook food.

i) _____

ii) _____

42. a) Name the parts of plant.



(i) A : _____

(ii) B : _____

(iii) C : _____

b) How can you care for plants in a garden?

_____

43) Match List 'A' to list 'B'

for hearing

for tasting

for seeing

for smelling

44. (a) Mention any two dangerous objects.

(i) _____

(ii) _____

b) Which dangerous object can cause the following?

(iii) Cuts : _____

(iv) Pierce : _____

45(a) Name any **two** examples of diseases you know.

(i) _____

(ii) _____

b) Mention any **two** insects which can spread diseases.

(i) _____

(ii) _____

46. (a) What is seedling?

_____

_____

b) Give any **two** examples of seeds grown in the garden.

(i) _____

(ii) _____

47. (a) Name the materials used to make these things.

(iv) balls : _____

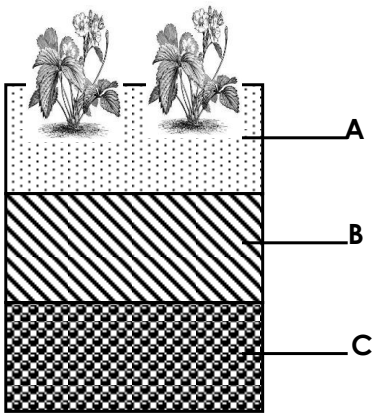
(v) ropes: _____

(vi) mats : _____

b) State any **one** thing made out of timer.

(i) _____

48. The diagram shows the soil layers.



(a) Name the layers;

(i) A : _____

(ii) B : _____

b) Why is layer A good for growing crops?

_____

c) Name any **one** living thing which live in layer A.

_____

49) Draw things used to give first aid.

Razorblade	water	cotton wool	Cloth

50 (a) Mention any **two** things made out of clay soil.

(i) _____

(ii) _____

b) Why is clay soil best for pottery?

_____

c) Apart from pots, mention any one material made from clay soil.

_____

51. (a) Name any **two** products got from cows.

(i) _____

(ii) _____

(b) Give **two** ways of caring for domestic animals.

(i) _____

(ii) _____

52 (a) Write **two** uses of water at home.

(i) _____

(ii) _____

b) State any **two** items used to keep water at home.

(i) _____

(ii) _____

53) Complete the table.

Animal	**Young ones**
cow	_____
_____	kid
pig	_____
_____	puppy

54a) Who heads a family?

_____

b) State **two** roles of children at home.

(i) _____

(ii) _____

c) Who breast feeds a baby at home?

_____

55. What is wind?

_____

b) State **one** use of wind to people.

c) Draw these conditions of weather.

windy	rainy

PAPER 14

SECTION A

1. Write any **one** characteristic of living things.

_____

2. Mention any **one** common accident at home.

_____

3. Why do people plant short grass in their compounds?

_____

4. How does a cow protect itself from enemies?

_____

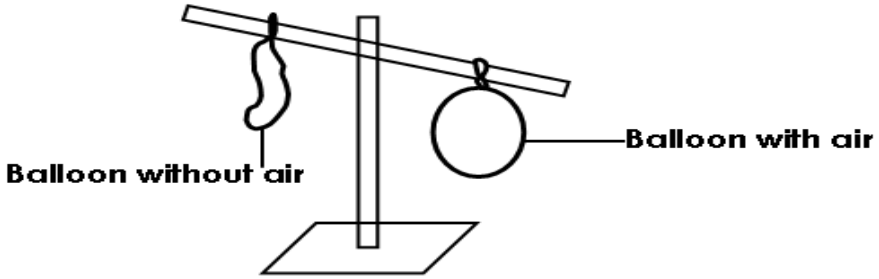
5. Why is a dog important in a home?

_____

6. State any **one** way of keeping the body clean

_____

The diagram below shows two balloons. Use it to answer question 7



7. Which property of air is shown in the diagram?

_____

8. Name any **one** common disease which affects people.

_____

9. What is air?

_____

10. State any **one** cause of changes in our environment.

_____

11. How can you care for the part of the body drawn below?

12. Name any **one** process involved in rain formation.

13. How is sunlight important to people?

14. Give any **one** way of keeping your classroom clean.

15. Name any **one** insect eaten by people.

16. Mention any **one** class of food.

17. State any **one** condition necessary for plant growth.

18. State the function of a watering can.

19. What is the best season for growing crops?

20. Give any **one** way of caring for animals.

21. How is the item below important to people?

22. Mention any **one** disease spread by mosquitoes.

23. Give any **one** member of a nuclear family.

24. Give any **one** way of making water safe for drinking at home.

25. Which part of the body is affected by trachoma?

_____

26. Name any **one** product made from animal skins.

_____

27. Apart from nimbus clouds, give any other type of clouds.

_____

28. Name the type of soil best for pottery.

_____
