ACTIVITY FOR LESSON 3

1. Simplify:
$$\frac{3}{8} \times \frac{4}{5} \times \frac{2}{3}$$

2. Work out:
$$2\frac{1}{2} \times 1\frac{3}{5}$$

3. Multiply:
$$3\frac{1}{3} \times 7\frac{1}{2} \times 1\frac{4}{5}$$

4. There are 400children in a primary school. Two-fifths of them are girls. How many girls are there in the school?
