SECTION A.

ie diagram below shows an item that is commonly found at hom	e.
Give any one use of the above item at home.	
Apart from gumboro, mention one other example of viral disea.	se in
oultry.	aivis.
In which way do crop pests lower crop yields?	140
. Name the type of chicken reared mainly for egg production.	
. How is maize propagated?	Many
. State any one way of controlling foot rot disease in cattle.	
. Mention any one source of the raw materials used for making r	nats.
. Why is sandy soil not good for crop growing?	il 1
0. State any one disadvantage of rearing exotic breeds of chick	en.
Name the type of soil commonly used in the making of tiles.	
Mention the external body organ used for hearing.	
3. Why is cassava called a root tuber?	

Page | 2 VESEC

14. What happens to the diaphragm when one breathes in?
15. State any one water impurity.
Use the structure of the human heart below and answer question 16. venacasa Pulmonary vein
16. How is the above organ adapted to its function?
17. What type of change is rusting?
18. State any one effect of HIV to the body's immune system.
19. Give any one use of chemical changes in our daily life.
20. How is skeletal system useful to the circulatory system?
21. Name the class of food which is made by the help of nitrogen.
22. A part from immunization, state one other way of controlling the spread of Tuberculosis.
23. State any one local material from trees which is used for brushing our teeth.
The diagram below shows an accident. Use it to answer question. 24.
24. Name the kind of accident shown in the diagram above.

25. State the vector for diarrhea.	
26. How does sun drying help to preserve cassava?	contra
27. State any one way the body can acquire natural immunity.	mre
28. State any one effect of smoking by a pregnant mother to her unb haby.	orn
29. Name the component of electric circuit which is used as a safety device in case of high voltage.	
The diagram below shows musical instrument. Use them to answer	
questions. B B	
A MAIN A STUMMEN A SOUT OF STATE OF STA	
30. What can you do to make bottle A produce the same pitch of so as bottle B.	ounc
31. In which way do scavenger birds help to control easy spread of diarrhea diseases?	Lun
32. Name the standard unit for measuring weight.	
33. State one way of reducing echoes in cinema halls.	
34. Give a reason why birds of prey lack crop.	
35. Apart from over flow can, state one other instrument used in the measurement of volume of an irregular object.	
36. Name the group of birds with spoon shaped beaks and fully we feet.	bbe

37. What energy change takes place in a dry cell is in use?
The diagram below shows a beak of a bird. Use it to answer question 38.
The process of them them made to associate and it them wo
38. Why would you group the above bird under birds of prey?
39. Why is distilled water not so useful to the body when taken?
40. Name the male reproductive cell in plants.
SECTION B
41. In one sentence give the meaning of the word, 'Heat'.
b) State any two effects of heat on matter.
i)
c) How do electricians control the effect of contraction on electric wires?
42. a) State any one use of anemometer.
b) State the element of weather which;
i) enables us to dry harvested crops.
ii) enables us to plant seeds.
c) How is rainfall important to a crop farmer?

43. 0	a) How do	es heat trave	el through ea	ich of the fo	llowing states?
	lid state _				
					od o poste unitalizacijeh
b) H	ow useful	is the proces	ss of heat trai	nsfer in i) an	d ii) above to people?
i)		The state of the s			o ert aug og day blow yny
ii)					
	he diagra follow.	am below sho	ows an electr	ic circuit. Us	e it to answer cuestions
		c	C	3)B

	seal		sardines		
	bat				tale the element of weather
a)To	which g	roup of verte	ebrates do a	nimals in gro	oup P belong?
					these terms of translater
b) S Q.	tate any	one similarity	between a	nimals in gro	oup P and those in group
c) S	tate any	one way of	caring for an	imals in grou	up R.
d) N	Jame an	one other	animal which	is missing in	group S.
-,	31113 (311)	, 5,10,5,110,1			

6. a) State a ny one way a housefly is able to spread germs.				
) Mention orne example	e of a diarrhoeal disease.			
c) Give any two ways of	f controlling vectors at home.			
i)	The day are way to grave for the manufacturity.			
	iter borne immunisable disease among infants.			
b) In which o rie way do childhood immunisable	es immunization help to protect children against diseases.			
i)				
	ource of food in the community.			
b) How does poor feed	ling affect human health?			
i)	sed in preservation of food.			
ii) 49. Use the diagram of	items commonly found at home.			
A Car	В			
Soap	Tooth brush			
a) Of the two items, no	ame one which is used to kill germs .			
b) Mention any two re	asons for spreading beddings in sunshine.			
1)	International desired and an arrangement of the second			
ii)				

occurs in the oviduct.
b) Give any one disease and disorder of the productive system.
i) disease
ii) disorder
c) State any one way of caring for the reproductive system.
51. a) Give any one reason for giving first aid.
b) Give any one effect of accidents to the human health.
c) Give any two ways of controlling accidents in busy roads.
1)
ii)
The diagram below shows a type of joint in the human skeletal system. U
it to answer the questions that follow.
× Programme and the second sec
52. a) Name the type of movable joint shown in the diagram.
b) With the help of an arrow and letter S, indicate the fluid that lubricate the joint.
c) Apart from reducing friction, give another function of cartilage found
at the ends of bones at the joints.
d) Give any one importance of joints to arthropods.
d) Give any one importance of joints to arthropods.

) water	BALICATICA	141.5 2020 23 23 23 23 23
i) plants		the analytical analytical
		ts as energy resource apart from
carrying out affo	restation.	
c) How are plant	s as eneray resources re	placed in the environment?
c) now are plant	. 43 51.0.97 15-51	
54. Complete the	table below.	
Organ	Digestive juice	Function
Mouth	i)	Softens
i)	Gastric juice	Contains pepsin which
		digest proteins.
iii)	iv)	contains pepsin, lipace and
	Maria Sala	amylase enzymes.
		a und relationers il un today up
55. a) Name any	one example of magr	netic and non-magnetic materia
i) magnetic mat	erial	
ii) nonmagnetic	animals	
b) Give any one	property of magnets _	
		A STATE OF THE STA
