Questions from 41 to 55 carry four marks each 41.a) Name one example of exotic rabbit kept in Uganda.
b) List any <b>two</b> diseases which attack rabbits.
i)
ii)

c) Write <b>one</b>	advantage of keepir	ng rabbits over goats	and sheep.

42. The diagram below shows a casualty who has just fainted. Study the diagram carefully and answer the questions that follow.

a)	Give the term used to describe the person marked <b>F</b> .
b)	State the cause of the above accident
c)	Explain why the legs of the casualty are raised
d)	Give the importance of blowing cold air over the casualty above

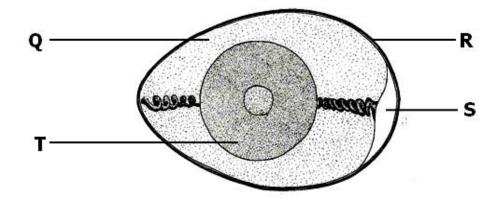

43.In the table below,  $\mbox{list } \mbox{\bf A}$  is of types of movable joints and  $\mbox{list } \mbox{\bf B}$  is of parts of the body.

List A. (types of movable joints)	List B. (parts of the body)
Gliding joints	Elbow
Pivot joints	Wrist
Ball and socket joints	Neck vertebrae
Hinge joints	Shoulder

Select from the table the correct location of a joint and write in the space
provided below.
a)Gliding joints
b)Pivot joints
c)Ball and socket joints
d)Hinge joints
44.a) State the function of each of the following parts of a Ventilated
Improved Pit (VIP) latrine.
i) Screen
ii)Vent pipe
b) Give any <b>two</b> ways of promoting cleanliness in an ordinary pit latrine.
i)
ii)
45. a) Name the animal fibre obtained from each of the following
i) Angora goat
ii)Merino sheep
b) Apart from being a source of fibre, state <b>two</b> other ways in which
animals are resources.
i)
REVISE EXTENSIVELY

ii)	)
•••	,

46. The diagram below shows the inner parts of a fertilised egg of a hen. Study it carefully and answer the questions that follow.

a)Identify the par	t labelled with letter <b>(</b>	Ç
--------------------	---------------------------------	---

 •	 	• •

- b)State the function of part labelled **S** and **T**.
  - i) **S** .....
  - ii)**T** ......
- c) Explain why the part labelled  ${\bf R}$  should allow some materials pass through it

.....

47. The table below shows disease vectors, germs which they carry and the diseases caused. Study and complete it correctly.

Disease vector	Type of Germ	Disease caused
	protozoa	Sleeping sickness
Black fly	Filarial worm	
Anopheles mosquito		Malaria
	Bacterium	Cholera

•••
•••
d?

30. a) Apart from yeast, mention any other example of fungus.
b) Give any <b>one</b> difference between fungi and plants.
c) Write <b>two</b> ways in which yeast is useful to people.
i)
ii)51. The diagram below is of a pinhole camera. Study it carefully and answer the questions that follow.
Screen
Object
a)Label the pin hole with the letter <b>X</b>
b)Use a pencil to draw the image formed by the object on the screen
c) Give any <b>two</b> characteristics of the image formed on the screen above.
i)
ii)
52.a) List any <b>two</b> negative effects of drug abuse to human health
i)
ii)
b) Write any <b>two</b> ways of controlling drug poisoning in a family.

i)
ii)
53.a) Apart from making honey, give any <b>two</b> other duties of worker bees in
a beehive.
i)
ii)
b) State any <b>two</b> advantages of using modern beehives in bee keeping
i)
; ii)
54.The diagram below show a maize grain. Study carefully and use it to
answer the questions that follow
answer the questions that follow
A
a) Name the parts labelled <b>C</b> and <b>D</b> .
i) <b>C</b>
ii) <b>D</b>
b) State the function of part labelled A and B.
i) <b>A</b>

55.a) Give the function of each of the following blood components.	
i) White blood cells	
ii)Blood platelets	
b) State any <b>two</b> ways of maintaining the heart in a healthy working	J
condition.	
i)	
ii)	
END
