### KOLFRAM EDUCATIONAL SERVICES KAMPALA

# MIDTERM II EXAMS 2023

PRIMARY FOUR

### **INTEGRATED SCIENCE**

Time allowed: 2 hours 15 minutes

Index Number:	Admission Number					Personal Number		
Candidate's Name:								
Candidate's Signature:								
School Name:								
District Name:								
DO NOT OBEN T	LITC DOO			CVOL	ABET	'ALB T	-	20

### DO NOT OPEN THIS BOOKLET UNLESS YOU ARE TOLD TO DO SO

### Read and follow these instructions carefully:

- This paper has two sections: A and B. Section A has 40 questions and section B has 15 questions. The paper has 10 printed pages.
- 2. Answer all questions. **All** answers to both sections **A** and **B** must be shown in the spaces provided.
- All answers must be written using a **blue** or **black** ball point pen or ink. Any answer written in pencils other than on graphs and diagrams will not be marked.
- 5. No calculators are allowed in the examination room.
- 6. Unnecessary changes in your work and handwriting that cannot easily be read may lead to **loss of marks**.
- Do not fill anything in the table indicated: "FOR EXAMINERS' USE ONLY" and boxes inside the question paper.

FOR EXAMINERS USE ONLY			
QN. NUMBER	MARKS	EXAMINER'S INITIAL	
1 -10			
11 - 20			
21 - 30			
31 - 40			
41 - 43			
44 - 46			
47 - 49			
50 - 53

## **SECTION A**

1. Name the gas which supports burning.				
2. What are natural changes?				
3. Why do we iron clothes?				
4. Give <b>one</b> way of making water safe for drinking.				
5. How are prop roots useful to plants like sugarcane?				
6. Which part of a flower develops into seeds after fertilization?				
7. Why can't green plants make food at night?				
8. How are shadows useful to man?				
9. Name the natural source of Vitamin D for adults.				
10. How is a dustbin useful in a classroom?				
11. Give any <b>one</b> way farmers can care for their crops in the garden.				
12. Name any <b>one</b> crop propagated by means of suckers.				
13. Which part of a plant makes food?				
14. Why is it good to bathe everyday?				
15. Name the part on the body of insects which is used for breathing.				
16. Identify the gas needed for seed germination to take place.				
17. Give the general name of the part of a plant below.				

18. How are nimbus clouds important to a farmer?				
19. What is weeding?				
20. Mention <b>one</b> agent of pollination.				
· · · · · · · · · · · · · · · · · · ·				
21. How does a dog move?				
22. Where does a female anopheles mosquito lay eggs?				
23. Why do plants shed off their leaves during a dry season?				
24. Give <b>one</b> reason for painting iron sheets.				
25. What are crop pests?				
26. Name <b>one</b> skeletal immunisable disease.				
27. Give any <b>one</b> natural source of water.				
28. Why does a chameleon change its colour?				
Study the diagram below and answer the questions 29 and 30.				
29. Name the type of germination shown above.				
30. Name <b>one</b> crop which has the type of germination shown above.				
31. In which part of the onion is food made?				

### The diagram below shows an animal. Use it to answer question 32.

- 32. Name the animal shown above.
- 33. How do plants depend on animals?
- 34. Identify **one** stage in a village food path.
- 35. Name **one** method of preserving food.
- 36. Write **one** example of a root tuber.
- 37. How useful are gills to a mushroom?
- 38. State any **one** bad eating habit.
- 39. State the function of a micropyle to a seed.
- 40. Give the main reason why farmers mulch their gardens.

### **SECTION B**

 $41. \mbox{Below}$  is a diagram of a staked plant. Use it to answer questions below.

(a) Name the method of staking shown above?

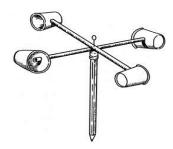

(b) Name any <b>one</b> crop staked using the method above.
(c) Mention any <b>two</b> reasons for staking crops in the garden.  (i)
42(a) What is First Aid?
(b) State the main reason for giving First Aid to a casuality.
(c)Name any two items found in a First Aid box.  (i)
(ii)
(b) Name the two solutes used in the preparation of O.R.S at home.  (i)
(ii)(c) Why is a dehydrated person given O.R.S?
44a) What is pollination?
(b) Name any <b>one</b> type of pollination.
(c)What is the role of a bee in the process of pollination?
(d) Give any <b>one</b> characteristic of insect pollinated flowers.
45a) Mention <b>two</b> activities done to keep your body clean.  (i)
<ul><li>(ii)</li></ul>
(ii) sponge:

# 46 <u>Match the weather instrument in list A to the weather element in List B correctly.</u>

	List A	(weather	List B (weather element)
	instrument)		
(a)	Rain gauge		Air pressure
(b)	Wind vane		Temperature
(c)	Thermometer		Rainfall amount
(d)	barometer		Direction of wind.
			Intensity of sunshine

(a)	Rain gauge	
(b)	Wind vane	
(c)	Thermometer	
(d)	Barometer	

# 47. Below is a diagram of a weather instrument. Use it to answer questions that follow.

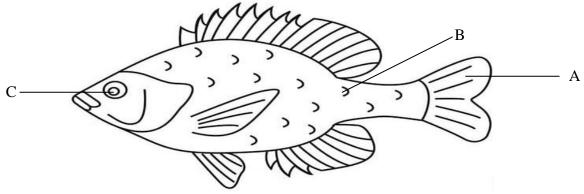

- (a) Name the wind instrument shown below.
- (b) What is the use of weather instrument shown above?
- (c) Which aspect of wind is recorded using the instrument above?
- (d) Mention any other **one** wind instrument found at weather station.

# 48 **Complete the table correctly.**

TROPISM	STIMULI
Phototropism	
	Water
Thigmotropism	
	Force of gravity

49a) What is soil erosion?	
(b) Give any <b>two</b> agents of soil erosion.  (i)	
(c)Why is soil erosion bad to a farmer?	
50a) State <b>one</b> importance of transpiration to the environment.	
(b) Mention <b>one</b> way in which plants take in water from the soil.	
(c) Mention <b>one</b> way in which plants lose water to the atmosphere.	
(d) Give <b>one</b> factor which affects the rate of transpiration.	
51a) What is moving air?	
(b) State any <b>one</b> use of wind to people.	
(c) Give <b>two</b> dangers of wind to people.	
(ii)  52 <b>The diagram below shows an animal. Study it carefully and answer</b> the questions that follow.	_ _ <u>er</u>
MYYM	

(a) Name the features marked <b>A</b> and <b>B</b> . (i) <b>A</b> (ii) <b>B</b>	
(b) State the function of part marked <b>C</b> to a fish.	
(c) What is the habitat of a fish?	
53a) Name the vector that spreads the germ for malaria.	
(1) (1)	
<ul><li>(b) Give any <b>two</b> types of germs.</li><li>(i)</li></ul>	
(i)	
(c)Mention any disease which spreads due to poor sa	nitation.
54a) What is soil profile?	
(b) State the top most horizons of soil.	
(c)Which layer of soil is suitable for crop growing?	
	11
(d) Name any <b>one</b> living organism which lives in the s	60II.
55a) What is environment?	
<ul><li>(b) State any <b>two</b> components of the environment.</li><li>(i)</li></ul>	
(ii)	
(c) How is man dangerous to the natural environment	<u>:</u> ?

# Good luck

# **KOLFRAM EDUCATIONAL SERVICES KAMPALA**MARKING GUIDE FOR P.4 SCIENCE MID TERM TWO 2023

### **SECTION A**

1.	Oxygen.

- 2. Natural changes are God made changes or forces that make things happen.
- 3. To kill germs/to kill lice and their eggs/Look smart and clean.
- 4. By boiling it.
- 5. Prop roots give extra support to them.
- 6. Ovules.
- 7. No sunlight is present.
- 8. They show direction.
- 9. The tell time.
- 10. To keep/store rubbish or litter.
- 11. Pruning/staking/watering/spraying/
- 12. Pineapples/banana/sisal
- 13. Leaves
- 14. Bathing prevents bad smell/It also prevents skin diseases/
- 15. Spiracles
- 16. Oxygen
- 17. Pistil
- 18. They provide rainfall to a farmer.
- 19. The removal of unwanted plants from the garden.
- 20. Insects/wind/flowing water/animals/
- 21. By wriggling
- 22. On stagnant water
- 23. To reduce on the rate of transpiration.

- 24. It helps to prevent rusting.
- 25. Living organisms which destroy crops.
- 26. Polio
- 27. Rain/springs/streams/lakes/rivers/
- 28. To hide from enemies/To be able to catch its prey
- 29. Epigeal germination
- 30. Beans, peas,
- 31. Leaves
- 32. Snake
- 33. Plants get carbon dioxide from animals/Plants get manure from animals.
- 34. Clearing the land/Selection of planting materials/Planting/caring for crops/Harvesting/Storing/Preparing food/Eating & usage of food in body.
- 35. Salting/freezing/sun drying/pasteurization/pickling/smoking/
- 36. Cassava/carrots/sweet potatoes/
- 37. They produce and store spores.
- 38. Talking while eating/putting too much food in the mouth/Chewing a little or swallowing food that is not properly chewed.
- 39. To allow in air and water during germination.
- 40. To keep water in the soil.

### **SECTION B**

- 41. (a) propping.
  - (b) bananas, coffee
  - (c) to avoid rotting of fruits, gives support to the plants
- 42. (a) The help (treatment) given to an injured person before being taken to a nearby hospital or health centre.
  - (b) To save life.
  - (c) Safety pin/razorblade/bandage/pain killers/
- 43. (a) Oral Rehydration Salts.
  - (b) Salt/Sugar
  - (c) To replace the lost mineral salts in the body/To rehydrate the body.
- 44. (a) Pollination is the transfer of pollen grains form anthers to the stigma.

- (b) Self pollination/Cross pollination
- (c) It carries pollens from one flower to another.
- (d) Sticky pollen grains/brightly coloured petals/style longer than the filament/Have nectar/Big petals/few pollen grains produced.
- 45. (a) Combing hair/Brushing teeth/Bathing/grooming finger nails
  - (b) (i) To make the hair smart/kempt/to groom hair.
    - (ii) To scrub the body.
- 46. (a) rainfall amount.
  - (b) direction of wind.
  - (c) Temperature.
  - (d) Air pressure.
- 47. (a) Anemometer.
  - (b) for measuring the peed of wind

- (c) wind speed
- (d) wind vane, wind cock
- 48. (a) light
  - (b) Hydrotropism
  - (c) touch
  - (d) Geotropism
- 49. (a) The removal of top soil by agents.
  - (b) wind/water (running water)/animals/
  - (c) It makes the soil infertile/less suitable for crop growth.
- 50. (a) It helps in rain formation.
  - (b) By absorption through the roots.
  - (c) Transpiration.
  - (d) Wind/humidity/surface area of a leaf/temperature/Number of stomata.
- 51. (a) Wind
  - (b) Destruction of property/Spreading disease germs/Raises dust/Soil erosion (wind erosion)
- 52. (a) **A** Tail fin **B** Scale
  - (b) for seeing in water.
  - (c) Water.
- 53. (a) Female anopheles mosquito.
  - (b) Protozoa/Virus/Bacteria/Fungi.
  - (c) Cholera/Malaria/Diarrhoea/ Dysentry
- 54. (a) The vertical arrangement of soil layers.
  - (b) top-soil,
  - (c) top-soil
  - (d) termites, snakes, millipeds,

### earthworm

- 55. (a) Things that surround man.
  - (b) Plants/air/soil/animals/water/
  - (c) By polluting air/water/ overgrazing/Bush burning/ cutting trees without planting new ones.
