Use it to answer the following questions. N (a) Name the domestic animal drawn above. (b) How is the part V useful to the animal drawn above? (c) Mention any one product got from the above animal. (d) State any one practice that can harm the above animal in the field. 42 a) Apart from drought, identify any other two natural causes of environmental degradation? (i) (ii) (b) Outline any two dangers of drought to people. (i) (ii) (iii) (iiii) (iiii) (iiii) (iiii) (iiiii) (iiiiii) (iiiiiiii	SECTION B (60 marks) 41. The diagram shows a domestic animal. Use it to answer the following questions. N (a) Name the domestic animal drawn above. (b) How is the part V useful to the animal drawn above? (c) Mention any one product got from the above animal. (d) State any one practice that can harm the above animal in the field. 42 a) Apart from drought, identify any other two natural causes of environmental degradation? (i)	8.	How d	lo farmers control diseases in rabbits?
SECTION B (60 marks) 41. The diagram shows a domestic animal. Use it to answer the following questions. (a) Name the domestic animal drawn above. (b) How is the part V useful to the animal drawn above? (c) Mention any one product got from the above animal. (d) State any one practice that can harm the above animal in the field. 42 a) Apart from drought, identify any other two natural causes of environmental degradation? (i)	SECTION B (60 marks) 41. The diagram shows a domestic animal. Use it to answer the following questions. N (a) Name the domestic animal drawn above. (b) How is the part V useful to the animal drawn above? (c) Mention any one product got from the above animal. (d) State any one practice that can harm the above animal in the field. 42 a) Apart from drought, identify any other two natural causes of environmental degradation? (i)	9.	State	the importance of keeping fish in ponds near homes.
41. The diagram shows a domestic animal. Use it to answer the following questions. (a) Name the domestic animal drawn above. (b) How is the part V useful to the animal drawn above? (c) Mention any one product got from the above animal. (d) State any one practice that can harm the above animal in the field. 42 a) Apart from drought, identify any other two natural causes of environmental degradation? (i)	41. The diagram shows a domestic animal. Use it to answer the following questions. N N N N N N N N N N N N N	0.	Name	the structures in the alimentary canal of a bird that used to crush food in the gizzard.
(a) Name the domestic animal drawn above. (b) How is the part V useful to the animal drawn above? (c) Mention any one product got from the above animal. (d) State any one practice that can harm the above animal in the field. 42 a) Apart from drought, identify any other two natural causes of environmental degradation? (i)	(a) Name the domestic animal drawn above. (b) How is the part V useful to the animal drawn above? (c) Mention any one product got from the above animal. (d) State any one practice that can harm the above animal in the field. 42 a) Apart from drought, identify any other two natural causes of environmental degradation? (i)	_		SECTION B (60 marks)
(a) Name the domestic animal drawn above. (b) How is the part V useful to the animal drawn above? (c) Mention any one product got from the above animal. (d) State any one practice that can harm the above animal in the field. 42 a) Apart from drought, identify any other two natural causes of environmental degradation? (i)	(a) Name the domestic animal drawn above. (b) How is the part V useful to the animal drawn above? (c) Mention any one product got from the above animal. (d) State any one practice that can harm the above animal in the field. 42 a) Apart from drought, identify any other two natural causes of environmental degradation? (i)	۱1. ⁻	The dia	agram shows a domestic animal. Use it to answer the following questions.
(b) How is the part V useful to the animal drawn above? (c) Mention any one product got from the above animal. (d) State any one practice that can harm the above animal in the field. 42 a) Apart from drought, identify any other two natural causes of environmental degradation? (i)	(b) How is the part V useful to the animal drawn above? (c) Mention any one product got from the above animal. (d) State any one practice that can harm the above animal in the field. 42 a) Apart from drought, identify any other two natural causes of environmental degradation? (i)			V N
(c) Mention any one product got from the above animal. (d) State any one practice that can harm the above animal in the field. 42 a) Apart from drought, identify any other two natural causes of environmental degradation? (i)	(c) Mention any one product got from the above animal. (d) State any one practice that can harm the above animal in the field. 42 a) Apart from drought, identify any other two natural causes of environmental degradation? (i)		(a)	Name the domestic animal drawn above.
(d) State any one practice that can harm the above animal in the field. 42 a) Apart from drought, identify any other two natural causes of environmental degradation? (i)	(d) State any one practice that can harm the above animal in the field. 42 a) Apart from drought, identify any other two natural causes of environmental degradation? (i)		(b)	How is the part V useful to the animal drawn above?
A2 a) Apart from drought, identify any other two natural causes of environmental degradation? (i)	A2 a) Apart from drought, identify any other two natural causes of environmental degradation? (i)		(c)	Mention any one product got from the above animal.
(i) (ii) (b) Outline any two dangers of drought to people. (i) (ii)	(i) (ii) (b) Outline any two dangers of drought to people. (i) (ii)		(d)	State any one practice that can harm the above animal in the field.
(ii) (b) Outline any two dangers of drought to people. (i) (ii)	(ii) (b) Outline any two dangers of drought to people. (i) (ii)	₽2 a		
(b) Outline any two dangers of drought to people. (i) (ii)	(b) Outline any two dangers of drought to people. (i) (ii)			
(i)	(i)		` ,	
(ii)	(ii)			
			` '	
+o. Ivallie ally one skill disease caused by a lungus.	to. Iname any one skin disease caused by a fungus.	י כו		
		ا. ا	ivaine	any one skin disease caused by a rungus.

(b) Give any **two** activities you can carry out to keep your skin healthy.

(c) How is the melanin four	·
44. Match the vaccines in A to the	B
(a) Polio vaccine	left upper arm
(b) BCG vaccine	in the mouth
(c) Polio vaccine	the right thigh
(d) DPT vaccine	left upper thigh
Rig	ght upper arm
the solution. i) ii) b) Mention the most important so	
46. Below is a musical instrument	t. Use it to answer the questions that follow.

(b) How does the instrument above produce sound?
(c) Identify the part which will produce the highest sound.
(d) Give a reason to support your answer in (c) above.
47. The diagram shows a tool used to promote personal hygiene. Use it to answer the questions that follow.
a) How is the above item useful to a P7cadidate?
b) Mention the body organ cleaned using the above item.
b) Apart from the above item, mention one other material that can be used to keep the body organin (b) in a proper working condition.
c) State any one disease prevented by using the above item.
48. (a) Briefly explain the term food preservation.
b) Why should food be preserved?
c) Suggest the different methods which can be used to preserve the following food stuffs. i) cassava ii) fish
49. (a) Write down the process of making alcohol.
(b)How can alcohol be a problem to a community?
(c) Which weather instrument uses alcohol?
(d) Give any one use of alcohol to people

50. (a) Briefly explain the term germination.	
(b) Besides warmth, name any other two conditions ne	
(ii)	
(c) How is warmth useful during seed germination?	
51. The diagram below shows a way of finding the volume questions below.	of a stone. Use it to answer
stone 30cc 20cc first water level 10cc 0cc (a) Name the instrument labelled P.	
(b) Give the use of the string in the above experiment.	
(c) Find the volume of the stone.	
52. (a) Name any two water resources that can be used as foo	
(ii)(b) State any one way of getting the above resource from	

(0	c) How can people conserve the above water resources?
. (a)	Name any one example of an essential drug.
	(b) Give any one condition needed for proper storage of essential drugs.
	(c) Write two life styles that P.6 Pupils can develop to safeguard against didependence.
	(i)
(ii	
. The	e diagram below shows a simple machine.
(a)	Identify the pulley system above.
(b)	How does the machine above simplify work?
	How does the machine above simplify work? What distance will the effort move if the load moves 8 m?

55. The diagram below shows water animal. Use it to answer questions that follow.

(d) State **one** uses of the above machine to people.

	END	
(c) How does the an	imal above reproduce?	
(b) How is part U use	eful to a fish?	
(i) F	(ii) G	
a) Name the parts m	arked K and G .
