22.	Name the structures that enable geckoes to move upside down the ceiling
23.	Name the germ that causes polio.
 24.	State any one disease that affects red blood cells.
 25.	Which vector spreads typhus fever to people?
26.	How are coconut seeds dispersed?
27.	In which kind of weather condition do the electric wires sag?
28.	Give one example of a vertebrate that uses a shell to protect itself.
29.	Name the insect that doesn't lay eggs but produces larva.
30.	Which component of air is used by plants to make proteins?

What determines the size of the image in a pin hole camera?

20.

Study the diagram of an electric bulb below and use it to answer question 31.

Why is part marked F made of coiled wires?	
Mention any one example of litter found in poultry House.	
Of what importance is litter mentioned above in a poultry house?	
The mass of a stone is 50g. If its volume is 10cc. calculate its density.	
Of what importance are the bright feathers to a hen?	
State any one reason why handles of umbrella are made of plastic or rubb	er.
	Mention any one example of litter found in poultry House.  Of what importance is litter mentioned above in a poultry house?  The mass of a stone is 50g. If its volume is 10cc. calculate its density.  Of what importance are the bright feathers to a hen?

3/.	what happens when pollen grains land on the stigma?
38.	Name one breed of cattle reared in Uganda.
39. d	Apart from killing germs, identify any other use of hydrochloric acid during igestion.
40.	What scientific name is given to the smallest particles that make up matter
	SECTION B
41.	a. What is environmental degradation?
—— b) G (i)	live any three artificial causes of environmental degradation.
(ii)_	
(iii)_	
42.	a) What name is given to animals with back bones?
b) M	lention any two groups to animals with back bones.
(i)	
(ii)_	
c) W	hy is a duck billed platypus referred to as a mammal yet it lays eggs?

# 43. The diagram below shows fungi. Use it to answer questions that follow.

A STATE OF THE PARTY OF THE PAR
a) Name part marked <b>P</b>
b) How does the above fungi reproduce?
c) State the function of part marked R.
44.a) What specific name is given to the vertical arrangement of soil layers?
b) Write down any three activities that destroy the soil.  (i)
(ii)
(iii)
45.a) Why should an ordinary pit latrine be smoked regularly?
b) Give any two indicators of poor sanitation in a home.
(i)
(ii)
c) Write <b>ECOSAN</b> in full.

46.a) Name the weather instrument used to measure the amount of rainfall received in an area.
b.) Give reason why people are advised to,
(i)Put the instrument named in (a) above in an open ground when using it.
(ii)Raise the instrument 30cm above the ground when using it
c) What is the importance of a ceilometer as a weather instrument?
47. The diagram below shows a method of marking a magnet. Use it to answer questions that follow.
North
a) Name the method shown above.
b) What name is given to the magnet made by using the method named_in (a) above.
c) Give any one way in which a magnet can be used in a kitchen.
d) Name the pole marked Y.
<del> </del>

48. Match the following items in A w	-
List A Nuclear electricity	List B fast flowing water.
Geothermal electricity	burning fuels.
Thermal electricity	hot rocks in the earth.
Hydro electricity	produced from uranium
a) Nuclear electricity	
b) Geothermal electricity	
c) Thermal electricity	
d) Hydro electricity	
49.a) State two roles played by the ovaries	
(i)	······································
(ii)	
b) What name is given to the hormone in	male animals that determines the
secondary sex characteristics.	
c) Give one way of safe guarding against age of 18.	teenage pregnancy among girls below the
50.a) Suggest two ways in which people i	in your locality use heat.
(i)	
(ii)	
b) Suggest a reason why the inner walls of	of a solar drier are painted black.
c) How does heat help to speed up the dr	rying of wet clothes?

## 51. The diagram below shows the way in which one of the systems of the human body works. Use it to answer the questions that follow.

a) Name the system.
b) What does a balloon represents?
c) What does a polythene paper represent?
d) What would happen to the polythene if air is removed from the balloon?
52.a)How does each of the following animals protect itself against its enemies?
a) Chameleon
b) Porcupine
c) Skunk
d) Scorpion

53. Study the table below and answer the questions that follow.

List A	List B
Hen	Seals
Dove	Whale
Duck	Porpoise
Turkey	Dugongs

a) To which class of animals do those in B belong?
b) In which way are animals in list A similar to those in B
c) Apart from those in list B. Give any other animal that fits in the list.
d) State the characteristic which is common in animals in both list A and list B.
54. Give one example of the following types of joints  (i)Hinge joint
(ii)Ball and socket joint
b) Mention the structure that joins a bone to a bone.
c) Name the longest and strongest bone in human body.

11

55. The diagram shows a ray of light striking a smooth surface. Study it and use it to answer questions that follow.

a) Name any one example of a material that can be used at material C

b) What is the size of angle a

c) Name the following rays

(i) XP			
` '			

(ii) PZ\_\_\_\_\_

**END**
